DECLARATION.

No. 1274J.—The 25th April 1911.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Northern Sijua Alignment, Katrasgarh-Dhanbaid Branch line, East Indian Railway, taking off the main line at mile 175 feet 312, and whereas coal mines are situate under the said land, and whereas the Union Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 15 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (*1*) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Union Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore the Lieutenant-Governor of Bengal in Council is pleased to declare, under section 5, sub-section (*2*), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Union Coal Company, Limited, in the manner and subject to the restrictions below specified, viz:—

(*a*) No gallery shall be driven or any coal extracted in any place where the distance from the top of the gallery, if driven, to the natural surface is less than fifty feet, with the exception that a single gallery may be driven from the existing workings in a direction approximately on the full dip of the seam.

(*b*) Galleries may be driven not more than 10 feet wide, with centres not less than 40 feet apart, in both sections of the seam known as No. 15A and No. 15B sections; and the pillars and galleries that may be driven in No. 15A section shall be exactly above the pillars and galleries that may be driven in No. 15B section, pillar over pillar and gallery over gallery, and there shall be no overlapping.

(*c*) The band of grey sandstone lying between No. 15A section and No. 15B section shall be left intact.

(*d*) Manholes not exceeding six feet in height and three feet in width by four feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(*e*) Any inrush of water, quicksand or soft material, shall be reported to the Chief Inspector of Mines without delay.

(*f*) This Declaration applies to No. 15 seam only, and to the area edged with pink on the plan, and the Union Coal Company, Limited, shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area, or to work coal under any other area of acquired land,

and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L. A. M. A. No. 162 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this Part of the "Gazette" cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 2nd May 1911, corresponding to 19th of Baishak 1318 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

RESOLUTION ON THE REPORTS ON THE WORKING OF THE POISONS ACT, I OF 1904, DURING THE YEAR 1910.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 20th April 1911.

RESOLUTION—No. 91T.—Medl.

READ—

Reports on the working of the Poisons Act, I of 1904, during the year 1910.

The steps taken during 1909 to make generally known the provisions of the Act and the Rules were continued during 1910, and it is now reported that there is little excuse for any plea of ignorance among those who deal in poisons,—for the most part medical practitioners, chemists, druggists, and *banias*.

2. The total numbers of licenses granted in the Province were 275 under section 2, and 388 under section 4, in comparison with 261 and 321 in the previous year. As in 1909, the largest number of licenses outside Calcutta were current in the Burdwan and Presidency Divisions, but in some cases it

is reported that former vendors did not renew their licenses, but gave up their business in poisons. The increase in the number of new licenses is therefore greater than might appear at first sight. In Orissa the increase as compared with the previous year in the number of licenses issued (from 8 to 27) and in the number of prosecutions (from 9 to 13) shows that some effort was made to enforce the Act, but it is clear from the large number of persons who are reported to deal in poisons (70 in Cuttack and 20 in Balasore) that the Act is not yet fully enforced. The progress made in Chota Nagpur was disappointing, though something was done in Hazaribagh. In the other districts no licenses were taken out, and only two prosecutions (in Ranchi) were instituted. The Deputy Commissioner of Singhbhum attributes this unsatisfactory state of affairs to the inattention of the police. There was some increase in the number of licenses issued in the Tirhut Division, but the number in the Bhagalpur and Patna Divisions remained practically stationary. In Gaya one license only was granted as against two in the previous year, though at that time 20 or 25 persons were reported to be dealing in poisons. It is obvious that a large amount of unlicensed trade must be going on, which it should be the endeavour of all District Officers to stop.

3. The duty of supervision and inspection was generally carried out by the police, but there is still scope for greater activity in this direction. The Inspector-General of Police reports that the Superintendents of Police in the districts named in the margin have not been supplied with lists of licensees as ordered in paragraph 3 of Resolution No. 87T.—Medl, dated the 20th April 1910, and the attention of the District Officers concerned is drawn to the omission.

4 The total number of prosecutions instituted under the Act in the Province was 60, of which 50 ended in conviction. This shows a decrease on the figures of the previous year, namely 72 prosecutions and 53 convictions. This may be partly due to stricter compliance with the Act, and partly to the disposal of minor cases by warnings; but now that the provisions of the Act and Rules have been made generally known, their provisions should be strictly enforced. The number of districts in which no prosecutions were instituted, as noted in the margin, is still large, and it is difficult to believe that over so extensive an area the Act was not infringed.

5. Authority was given during the year to Subdivisional Officers to grant licenses within their jurisdiction, thus facilitating the working of the Act. The Magistrate of Birbhum reports that by reason of the omission of the colloquial names from the notification as published in the vernacular, the public do not understand what poisons are covered by the Act; but in the list published with Government Notification No. 1265Medl., dated the 20th July 1908, it was obviously impossible to include every local name, and in cases where names other than those specified are in use the District Magistrate should explain the application of the rules to them by a supplementary local notification. The question has been raised in several quarters whether compounds of poisons come within the scope of the rules, but for the present at any rate it has been decided that the rules should apply to crude poisons only.

ORDER.—Ordered that a copy of the Resolution be forwarded to all Commissioners of Divisions, to the Commissioner of Police, Calcutta, and to the Inspector General of Police, Lower Provinces (through the Political Department).

By order of the Lieutenant-Governor in Council,

H. WHEELER,

Secy. to the Govt. of Bengal.

REPORT ON THE BRUCE INSTITUTION FOR THE YEAR 1910.

NOTIFICATION.

No. 2299.—The 21st April 1911.—The following is published for general information.

J. G. CUMMING,
Secy. to the Govt. of Bengal.

Report on the Bruce Institution for the year 1910.

1. *Control.*—(1) During the year under review the following gentlemen were appointed to be Governors:—

(*a*) Mr. E. L. Preston, *vice* Mr. N. L. Hallward, resigned.

(*b*) The Revd. R. C. Grose, *vice* the Revd. D. H. Manley, resigned.

(*c*) The Hon'ble Mr. W. C. Madge, *vice* Mr. A. Caspersz (Barrister-at-Law), resigned.

(*d*) The Ven'ble Archdeacon Luckman, who was absent from Bengal for a period of more than six months, ceased to be a Governor under rule 8. He was succeeded by the Ven'ble Archdeacon Wickins.

(2) Mr. E. L. Preston resigned his appointment as a Governor at the close of the year.

(3) The following is a list of the Governors holding office at the end of the year:—

The Hon'ble the Chief Justice of Bengal ... ...
The Most Revd. the Lord Bishop of Calcutta ... ...
The Inspector-General of Civil Hospitals, Bengal ... ... } *Ex-officio.*
The Chairman of the Calcutta Municipality ... ...
The Director of Public Instruction, Bengal (Honorary Secretary)
The Hon'ble Sir Richard Harington, Bart.
The Hon'ble Mr. A. M. Monteath.
The Hon'ble Mr. W. C. Madge.
The Ven'ble Archdeacon Wickins.
The Revd. Father A. Van de Mergel, S.J.
The Revd. R. C. Ghose.

II. *Capital and Income.*—The capital of the Institution stood, as in the previous year, at Rs. 10,51,200, of which Rs. 10,43,200 are in the form of a 3½ per cent. stock certificate of the year 1865. The balance, viz., Rs. 5,000, is invested in 3½ per cent. Government securities. The annual interest on the capital amounts to Rs. 36,792. The year opened with a balance of Rs. 18,495-7-9 and closed with a balance of Rs. 19,775-6-10.

III. *Election to vacancies, etc.*—(1) The annual election of foundationers was held on the 21st January. For the sixteen vacancies advertised, sixty-one applications were received. These applications were considered by a sub-committee consisting of the Hon'ble Mr. Monteath, the Revd. Father A. Van de Mergel, S.J., the Revd. D. H. Manley and Mr. N. L. Hallward; and 16 children were elected on their recommendation. Of the girls elected, eight were sent to the Loreto Convent (six in the orphanage and two in the boarding school), five in the Calcutta Girls' High School, two in the Pratt Memorial School and one in St. Paul's Mission Home.

(2) Of the twenty-three girls withdrawn during the year, sixteen had attained the age of seventeen years, the limit ordinarily allowed under the rules; seven were withdrawn before they had attained that age.

(3) Of the girls who had been withdrawn during the year 1909, and in respect of whom reports have been received during the year under review, one

girl after passing the High School Examination is engaged in teaching; another was a teacher for a few months but had to resign her appointment on account of ill-health. Two girls have found places as shorthand typists, while another is employed in a draper's firm. Two girls got married.

At the close of the year there were 126 girls on the foundation against 131 in the preceding year. They were distributed as follows:—

Loreto Convent, Entally —		
Boarding School ...	28	63
Orphanage ...	35	
Calcutta Girls' High School		38
Pratt Memorial School ...		9
La Martinière for Girls ...		2
St. Paul's Mission Home		9
Calcutta Free School ...		2
Old Church Parochial Home		2
St. Andrew's Colonial Homes, Kalimpong		1
Total ...		126

(4) The following table affords particulars as to the class and religion of the foundationers at the close of the year :—

Class.	Roman Catholics.	Church of England.	Non-Conformists	Total.
1. Orphans or deserted by parents ...	19	11	10	40
2. Fatherless, or deserted by their fathers, or whose fathers were incapable.	42	19	15	76
3. Having father or both parents alive ..	2	1	7	10
Total ...	63	31	32	126

(5) The health of the girls was on the whole satisfactory.

IV. *Education and maintenance.*—(1) The nature of the education imparted to the girls on the foundation is generally that prescribed for Elementary and Higher Elementary Schools under the revised Code of Regulations for European Schools in Bengal. In exceptional cases a higher eduction is given.

(2) Parents and guardians are generally given the choice of any boarding school for the education of their children or wards, provided that such a school has been approved by Government as suitable for girls on the Bruce Foundation. A sum of Rs. 21-8 or Rs. 16 a month is paid for the education and maintenance of each foundationer in a boarding school or an orphanage, as the case may be. A sum of Rs. 40 or of Rs. 25 is also allowed for each foundationer for an outfit on joining a boarding school or an orphanage, as the case may be. Under the rules a girl is not ordinarily allowed to remain on the Fund after she has attained the age of 17 years, when an outfit grant of Rs. 50 is generally given to enable her to make a start in life. If, however, a girl elects to take up teaching as a profession an extension is generally allowed. Short extensions of a few months are also generally allowed to girls who are preparing for examinations under the Code of Regulations for European Schools, or for the Cambridge Locals, or who are studying shorthand or typewriting. Two such extensions were granted during the year.

(3) The monthly average cost of the education and maintenance of each girl on the Fund amounted to Rs. 18-12-8 against Rs. 19 12-7 in the preceding year.

(4) The amounts paid under the different heads of expenditure were as shown below:—

1909.	Rs.	A.	P.	1910.	Rs.	A.	P.
Education and maintenance ...	35,102	12	0	Education and maintenance	32,551	9	0

Other charges ...	108	8	0	Other charges ...	146	10	0
Total ...	37,394	12	10	Total ...	35,430	7	6

V. *Inspection.*—The Revd. Father A. Van de Mergel, S.J., was appointed Visiting Governor for the first-half, and re-appointed to the same office for the second-half, of the year. His reports were satisfactory. He stated in his first report that he had visited all the schools in Calcutta where Bruce foundationers were being educated and found no serious complaints anywhere, and that in all the schools the children seemed to be happy and well cared for. He found that apart from book-work the girls were being trained in various degrees in practical household work.

VI. *Meetings.*—Four meetings were held during the year, but there was no resolution of importance calling for special mention.

CALCUTTA,
The 27th March 1911.

G. W. KÜCHLER,
Honorary Secretary to the Governors.

DEPARTMENT OF AGRICULTURE, BENGAL.

Preliminary Forecast of the Early Variety of the Sesamum Crop of Bengal for the year 1911.

(On an average of the five years ending 1908-09, the area under *til* in the territory to which this forecast relates represents about 5·3 per cent. of the total area under this crop in British India.)

Explanatory.—The crop is cultivated in Bengal Proper and Orissa, and also in Shahabad, Saran, Muzaffarpur and Manbhum. It is most important in Midnapore and is of importance in Burdwan, Bankura, Khulna and Manbhum. Sowings commenced at the normal time in almost all the districts. In most districts of Lower Bengal want of moisture was felt during the sowing season. On the whole a fair crop is expected this year. Sowings have not yet begun in the 24-Parganas, Nadia, Cuttack, Balasore, Sambalpur, and in parts of Murshidabad.

Area sown.—The total area sown up to now is reported to be 29,300 acres. Last year's area under the crop was shown as 36,800 acres. The complete report on the general character of the crop will be given in the final forecast which will be issued in August next.

W. B. HEYCOCK,
Director of Agriculture, Bengal.

DRAFT RULES TO REGULATE THE CARRYING OF NOTICE-BOARDS IN CALCUTTA AND ITS SUBURBS.

The following draft of a notification, which the Commissioner of Police, Calcutta intends, with the previous sanction of the Lieutenant-Governor in Council, to issue under the Calcutta Police Act, 1866 (Ben. Act IV of 1866), and the Calcutta Suburban Police Act, 1866 (Ben. Act II of 1866), as amended by the Calcutta and Suburban Police (Amendment) Act, 1910 (Ben. Act III of 1910), is published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on the 10th June 1911, and any objection or suggestion which may be received by the undersigned before that date will be considered.

Draft Notification.

IN exercise of the powers conferred by clause (*b*) of section 62 of the Calcutta Police Act, 1866 (Ben. Act IV of 1866), and clause (*b*) of section 39 of the Calcutta and Suburban Police Act, 1866 (Ben. Act II of 1866), as amended by section 16 of the Calcutta and Suburban Police (Amendment) Act, 1910 (Ben. Act III of 1910), the Commissioner of Police, Calcutta, with the previous sanction of the Lieutenant-Governor in Council, hereby makes the following rules for regulating the carrying of notice-boards for the purposes of advertisement in the streets and public places of Calcutta and its Suburbs :—

RULES.

1. No person shall convey or cause to be conveyed through any street or public place any notice-board intended for the purposes of advertisement which is more than two feet six inches in height and one foot eight inches in breadth.

2. When any such notice-boards are conveyed by a person on foot, they shall be slung from the shoulders of such person either in front of or behind, or in front of and behind such person ; and they shall not be carried in any other way.

3. (1) No such notice-boards shall be conveyed on a bullock-cart or on any other vehicle except a hand-cart; and such hand-cart must be under the control of two persons.

(2) When any such notice-board is conveyed in a hand-cart, the greatest height from the top of the notice-board to the ground shall not exceed six feet.

4 When any such notice-boards are conveyed by persons on foot, each person conveying one or more notice boards shall keep at a distance of not less than fifty feet from any other person conveying a notice-board or boards.

5. (1) No person or conveyance carrying or conveying any such notice-board shall halt on any main street or thoroughfare; and they shall not be allowed on any foot-path; but they shall proceed slowly along the roadway, keeping as close to the curb-stone of foot-path as possible, and at the same time adhering to the rule of the road.

6. No iron work shall be used in the construction of any such notice-board.

[Third Publication.]

The 17th April 1911.

No. 2.—Notification.—It is hereby notified for general information that the Lieutenant-Governor in Council proposes, under the provisions of sections VI and XI of the Bengal Canals Act V of 1864, to make the following addition to Item 9 of the Schedule of tolls in force on the Calcutta Canals and Tolly's Nala and published in Notification No 144, dated the 23rd May 1898, as amended by Notification No. 9, dated the 28th October 1907.

T. BUTLER,
Secy. to the Govt. of Bengal.

Addition to Item 9 of the Schedule above referred to.

"Monthly tickets at ten times the ordinary toll as calculated under Item 1 of the Schedule for entering the Canals from the eastward will be issued to boats carrying passengers, vegetables and perishable goods for plying within the Circular, New Cut and Kristopur Canals. These tickets will not entitle the boats to pass through the Dhappa or Chitpore Lock, but they will be allowed to pass the Kristopur Toll Station."

MARINE DEPARTMENT.

The 28th April 1911.

Notification.—No. 50*Marine.*—In exercise of the powers conferred by section 6, sub-section (*1*), clause (*p*), of the Indian Ports Act, 1908, as amended by the Indian Ports (Amendment) Act, 1911, the Lieutenant-Governor in Council proposes to make the following regulations in respect of the following diseases: (*1*) *Small-pox*, (*2*) *Chicken-pox*, (*3*) *Measles*, (*4*) *Scarlet Fever*, (*5*) *Typhus*, (*6*) *Plague*, (*7*) *Cholera*, (*8*) *Yellow Fever*, (*9*) *Sleeping Sickness* and (*10*) *Jigger*, occurring on vessels coming to, or leaving, any port subject to that Act in the Province of Bengal, or for the time being in any such port, and in respect of any death on such vessels not carrying a duly qualified doctor.

These rules will be taken into consideration a month after their publication in the *Calcutta Gazette* and the Lieutenant-Governor in Council, will be glad to consider any observations or criticisms which may be made within that period.

T. BUTLER,
Secretary.

PART I.—DEFINITIONS.

1 In these regulations—

(1) "Health Officer" means any person appointed by the Local Government, either by name or by virtue of his office, to be Health Officer of a port, and includes any officer appointed by the Local Government, either by name or by virtue of his office, to perform any of the duties of a Health Officer of a port;

(2) "healthy vessel" means a vessel which, even though coming from an infected port— Paris Convention, article 20.

(*a*) has not had on board any death from unknown or suspicious cause, or any patient suffering, or suspected to be suffering, from any of the diseases enumerated in the preamble, either immediately before departure, during the voyage from the last port of call, or on arrival; and,

(*b*) has not, within a period of twelve, or in the case of plague, five days, immediately preceding her arrival, left an infected port or communicated (except orally without contact or by signal) with a vessel which has left an infected port within that period;

(3) "infected vessel" means a vessel which has on board one or more cases of any of the diseases enumerated in the preamble, or on board of which a case of any of those diseases has occurred during the twelve days (in the case of plague seven days) immediately preceeding her arrival at a port in British India, or on which rats have died from plague; Paris Convention, article 20.

(4) the term "infected," when used with reference to any articles, means any articles which the Local Government may, by notification in the local official Gazette, declare to be infected, with any of the diseases in question;

(5) the term "infected port," when used with reference to a port in British India, means any port which the Local Government may, by notification in the local official Gazette, declare to be infected;

(6) "suspected vessel" means a vessel on board of which there has been a case of any of the diseases enumerated in the preamble at the time of departure or during the voyage from the last port of call, but on board of which no fresh case or suspected case of such disease has occurred during the twelve days (in the case of plague seven days) immediately preceding her arrival, or on which unusual mortality among rats has been observed, or which has communicated (except orally without contact or by signal) with an infected vessel within the twelve days (in the case of plague seven days) immediately preceding her arrival; Paris Convention, article 20.

(7) "master," when used with reference to a vessel, means any person (except a pilot or harbour master) having for the time being charge or control of the vessel;

(8) "Port Officer" includes any person acting under the authority of the Local Government in charge of port discipline.

PART II —VESSELS ARRIVING AT PORTS IN BRITISH INDIA.

2. The master of every vessel arriving at any port in British India from a port beyond India shall—

(*a*) if the vessel has on board any person suffering or suspected to be suffering from any of the diseases enumerated in the preamble, or

(*b*) if any case or suspected case of any of those diseases has occurred on board within the twelve days immediately preceding the arrival of the vessel, or if unusual mortality has occurred among rats, or

(*c*) if the vessel has come from a port infected with yellow fever, or

(*d*) if the vessel has come from an infected port within twelve days of leaving such port, or

(*e*) if the vessel has had such communication with an infected vessel or with a vessel from an infected port as might have infected her with any of the diseases in question,

hoist a signal which shall be—

by day Flag L of the Commercial Code, which is a square flag of yellow and black borne quarterly, and

by night three lights, at a height of not less than 20 feet above the hull of the ship, which shall be arranged, at a distance of not less than six feet apart, in the form of an equilateral triangle, and of which the light at the apex of the triangle shall be white and the lights at the ends of the base shall be red,

and shall report every such case or death that may have occurred from any of the causes enumerated above, or in the case of a vessel not carrying a duly qualified doctor any death from any cause, to the pilot or other boarding officer at the earliest opportunity,
and shall also comply, on arrival at such place as may be appointed in this behalf by the Local Government with such regulations as may be made by the Local Government in regard to—

(*i*) signalling the name of the port from which the vessel has come,

(*ii*) stopping at a particular place,

(*iii*) refraining from communication with the shore, and

(*iv*) taking measures for giving effect to the present regulations.

3. If the vessel be at anchor within port limits when such disease first breaks out or such death occurs, the master shall hoist the signals specified in rule 2.

4. The pilot or other boarding officer shall promptly report the circumstances of the case to the Port Officer, who shall immediately forward any report so made or give notice of any signal hoisted to the Port Health Officer.

5. (1) When any vessel carrying a duly qualified medical man, on board of which no suspicious case of sickness and no unusual mortality among rats has occurrred within the twelve days immediately preceding, is within sight of a port in British India, the master may intimate the fact by signal.

(2) Such intimation shall ordinarily be accepted by the Port Officer; and if so accepted, the Health Officer need not visit the vessel, which may be given pratique at once.

PART III.—BERTHING OF VESSELS.

6. (*a*) If the number of deaths from or cases of the diseases enumerated in the preamble, with the exception of plague and yellow fever, does not exceed two, the vessel will not be prohibited from taking up the usual place of anchorage in the harbour or port, except that she may not enter the docks without the written permission of the Health Officer, and the passengers and crew not suspected of having any of the diseases in question need not (except in the case of pilgrim and emigrant ships) be detained on board pending the inspection of the Health Officer. The master of the vessel shall be responsible that no one of the passengers or crew, except those referred to above, is allowed to leave the vessel before inspection by the Health Officer, and shall prevent the landing of infected bedding, clothes, or other personal effects which he has reasonable cause to consider likely to be infected.

(*b*) If the number of cases or deaths within the previous twelve days has exceeded two, or when from their occurrence on pilgrim or emigrant ships or for other special reasons further precautions may be deemed advisable, the pilot, or in his absence the master, shall keep hoisted by day or night as the case may be, the signals prescribed by regulation 2, and shall anchor the vessel in the place appointed for the purpose and shall not allow any of the passengers or crew to leave the vessel until pratique is granted.

7. If a case of yellow fever or of plague or unusual mortality among rats has occurred on board, the vessel shall not take up the usual place of anchorage pending the visit of the

Health Officer; in the meanwhile the vessel shall stop at such place as the Local Government may by order provide.

8. So long as the signals prescribed by regulation 2 are shown, no *tindal* or other person in charge of or navigating any boat shall, without the permission of the Health Officer, attempt to take it alongside such vessel. A police boat shall be placed on guard to see that this regulation is duly enforced.

PART IV.—INSPECTION OF VESSELS.

9. Whenever the Health Officer receives the notice referred to in regulation 4, he shall without unnecessary delay proceed on board and examine the vessel, and the master shall give him every facility for the examination of the passengers, crew, personal effects, cargo, and any part of the ship the Health Officer thinks necessary. The Health Officer may require a declaration on oath from the medical officer (if any) of the vessel or from the master or from both, whether any death or sickness from an unknown or suspicious cause or any case of any of the diseases enumerated in the preamble has occurred on board the vessel either during the voyage or before her departure, and with reference to plague, whether any unusual mortality has been observed among rats. If the Health Officer is satisfied that such deaths as may have occurred were not due to any of the causes enumerated in the preamble, he shall permit the vessel to proceed to anchorage and to discharge passengers and cargo without any further restrictions. If he is not so satisfied, he shall proceed as provided in these regulations. The inspection by the Health Officer will ordinarily take place between sunrise and sunset.

10. As a result of every inspection the Health Officer shall classify the vessel as infected, suspected or healthy.

11. On the completion of the inspection prescribed by regulation 9, such of the passengers and crew as are found to be free from any of the diseases in question and unlikely to carry infection shall be allowed to land. All baggage, personal effects and cargo, except such articles as the Health Officer is entitled to disinfect, may also be landed.

12. If a case of any of the diseases enumerated in the preamble occurs on any vessel after she has entered dock or has been moored at a wharf, the master shall forthwith cause information thereof to be given to the dock master or superintendent of the wharf, who shall communicate the information to the Health Officer (through the Port Officer) and to the Superintendent of Police, and shall be responsible that the sick person shall be isolated as much as possible, and that free communication with the wharf is stopped until the Health Officer has inspected the vessel.

13. In the case of vessels of the Royal Navy and foreign vessels of war any medical inspection to be made may be carried out by the naval medical officer in the presence of the Health Officer.

PART V.—REMOVAL OF THE SICK.

14. When on inspection the Health Officer considers it necessary in order to prevent the spread of disease, he shall take the measures indicated in Part VI of these rules as the case may be.

15. The removal of passengers is not to be enforced in the case of persons bound for an onward port unless under the clearest necessity, and in every such case a special report explaining the reasons for the action taken must be submitted by the Health Officer to the Local Government.

16. The Port Health Officer shall inform the Municipal Health Officer in all cases in which he arranges for the conveyance of a patient to a sanitarium or hospital or other place within municipal limits, and shall furnish the Municipal Health Officer with the address of any private residence to which he permits the removal of a patient.

17. Where small-pox is the disease on account of which the vessel is deemed to be infected, the Health Officer shall offer, without charge, vaccination or revaccination to all persons willing to be operated upon, and shall cause to be vaccinated, if their guardians or those in charge of them consent, all children below 10 years and over 6 months of age who do not bear marks of vaccination or of small-pox. In the case of plague inoculation may similarly be offered free of charge to all willing to be inoculated.

PART VI.—MEASURES TO BE TAKEN IN THE CASE OF HEALTHY, INFECTED, AND SUSPECTED VESSELS.

18. Vessels classed by the Health Officer after inspection as healthy, shall be given free pratique.

PART VI-A.—SMALL-POX, CHICKEN-POX, MEASLES, SCARLET FEVER, TYPHUS AND CHOLERA.

19. In the event of a vessel being classed either as infected or suspected on account of any of the above-mentioned diseases, the Health Officer—

(1) shall not enforce the removal from the vessel of any person or persons bound for an onward port unless under the clearest necessity as provided for in regulation 15;

(2) may arrange for the conveyance of any person suffering or suspected to be suffering from such disease to a sanitarium or hospital, unless the sick person or his friends can make adequate provision elsewhere of which the Health Officer must satisfy himself;

(3) shall either himself undertake, or direct the master of the vessel to undertake the destruction or disinfection of all clothing, bedding and other articles of personal use which have been used by any person suffering from any of the above-mentioned diseases, and are or are likely to have been soiled with infective matter or to retain infection;

(4) may when a vessel with one or more of the above-mentoined diseases on board has passengers or crew in a filthy and unwholesome condition, cause the clothing and personal effects of such persons to be disinfected before allowing them to leave the vessel;

(5) may, in the case of undecked craft, direct the disinfection, or in special cases the destruction, of food-stuffs which have been exposed to contamination and are considered likely to be infected;

(6) may direct the disinfection, cleansing and painting of any portion of the vessel that has actually been exposed to contamination or is in a filthy or insanitary condition, and may prohibit the discharge of bilge water or water ballast within port limits;

(7) may in the case of cholera, direct the master to have the bilges and water tanks emptied and cleaned outside port limits.

PART VI-B.—PLAGUE.

Paris Convention, article 21.

20. In the case of infected vessels the following measures shall be taken :—

(1) All persons on board shall be medically examined as prescribed in regulation 9.

(2) All persons suffering from plague shall immediately be disembarked under the directions of the Health Officer and isolated in the camp or hospital, whether ashore or afloat, appointed by the Local Government for the purpose.

(3) Other persons shall also be disembarked, if possible, and shall either be kept under observation* during a period which shall not exceed five days dating from the arrival of the ship and which may or may not be followed by surveillance* of not more than five days' duration or may, at the discretion of the Health Officer, be subjected to surveillance only during a period which shall not exceed ten days if the place of destination is free of plague.

(4) The Health Officer may permit such healthy members of the crew as are required to be present on board for the care and safety of the vessel, to remain on board but subject to surveillance. Such persons shall not land, without the permission of the Health Officer, until pratique is given.

(5) Such soiled linen, wearing apparel and articles belonging to the crew and passengers as are, in the opinion of the Health Officer, infected, shall be disinfected.

(6) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

(7) The rats on board shall be destroyed, either before or after discharge of the cargo, in either case as quickly as possible, and in any case within a maximum time of forty-eight hours in such manner as to avoid damage to merchandise and to the ship's plating and engines In the case of ships in ballast this process must be carried out as soon as possible, before embarking cargo

Paris Convention, article 38.

(8) Passengers arriving by an infected ship are entitled to obtain from the Health Officer a certificate showing the date of their arrival and the measures taken as regards themselves and their baggage.

21. When the measures prescribed in regulation 20 have been duly taken in respect of any vessel the Health Officer shall, by written order, grant pratique provided that, if a case of plague or of illness suspected to be plague occurs on board subsequent to the grant of the above certificate, the certificate shall become invalid and the vessel again become subject to the requirements of the regulations regarding infected vessels

Paris Convention, Sup. article 22.

22. In the case of suspected vessels arriving at a healthy port the following measures shall be taken :—

(1) All persons on board shall be medically examined as prescribed in regulation 9.

* "Observation" means isolation either on board the ship or in a sanitary station appointed for the purpose before the grant of pratique Passengers under "surveillance" are not isolated, they receive pratique at once and are at liberty to proceed to their destinations, but the authorities at those places are informed of their coming and they are subjected to medical examination for such period as may be fixed in these rules.

(2) The crew and passengers may, at the discretion of the Health Officer, be subject to surveillance, the duration of which dating from the arrival of the ship shall not exceed five days The crew may also duri g that period (or, if the vessel is in port for less than five days during the time she remains in port) be prevented from leaving the ship, except on duty on such conditions as the Health Officer may consider permissible

(3) The destruction of rats may be ordered at the discretion of the Health Officer, and if ordered shall be carried out in the terms of regulation 20 (7).

(4) All soiled linen, wearing apparel and personal effects of the crew and passengers which are or are suspected to be infected, shall be disinfected by moist heat at a temperature of not less than 100°C.

(5) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected; and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

23. When the measures prescribed in regulation 22 and in clauses (1), (5) and (6) of regulation 20 have been taken in respect of any vessel, the Health Officer shall, by written order, grant pratique.

24. In the case of healthy vessels arriving at a healthy port pratique shall ordinarily be given at once as provided for in regulation 18, but the Health Officer may, in his discretion, if special circumstances appear to him to require it, impose any or all of the following measures:— Paris Convention, articles 23-24.

(1) medical examination as prescribed in regulation 9.

(2) disinfection of soiled linen, etc., as prescribed in regulation 20 (5);

(3) destruction of rats as prescribed in regulation 20 (7); but the process of deratisation must not occupy more than 24 hours;

(4) he may also subject the passengers and crew to surveillance for a period not exceeding five days from the date of departure from the infected part.

In the case of an otherwise healthy vessel which has cleared from an infected port, or which has had communication with a vessel which has left an infected port, the crew and passengers may be subjected by the Health Officer, in his discretion, to surveillance during a period which shall not exceed five days reckoned from the date of such clearance or communication whichever is the more recent. The crew may during the same period be prevented from leaving the ship except on duty.

25. In exercise of the functions imposed upon him by regulations 9, 10, 20 and 22, the Health Officer shall— Paris Convention, articles 29-30.

(*a*) attach due importance to the presence on board the vessel of a medical officer and to the provision of apparatus for disinfection by means of saturated steam and for the destruction of rats, and

(*b*) shall take into account the sanitary or insanitary, and roomy or crowded condition of the vessels.

26. If in the case of any vessel making a passing call, the communication with the shore is restricted to the landing of passengers, mails or goods, the Health Officer may, in his discretion, enforce the provisions of regulation 20, 22, or 24, as the case may be, to such extent only as may in his opinion be necessary for the purpose of controlling the actual communication with the shore.

Provided (*a*) that any persons on board the vessel whom the Health Officer has reason to believe to be suffering from plague shall be landed and kept under observation.

Provided also (*b*) that ships from an infected place that have been disinfected and have undergone adequate sanitary measures, shall not, on their arrival in another port, be subjected to these measures a second time if no case has occurred since the disinfection was performed and if they have not called at an infected port. A ship which has merely disembarked passengers and their baggage or mails, without having been in communication with the shore, shall not be regarded as having called at the port. Paris Convention, article 32.

27. The Health Officer shall whenever requested furnish the master, the ship-owner or the ship-owner's agent with a certificate stating that measures of rat destruction have been carried out and giving the reasons why they were resorted to. Paris Convention, article 25.

28. The foregoing regulations shall not prevent the transhipment, under restrictions to be imposed by the Health Officer in conformity therewith, of passengers, mails or goods between vessels which have not been granted pratique.

29. If any case of plague occurs among any group of persons who are being kept under observation, the patient shall be isolated or sent to a hospital, and the other persons shall continue to be detained and segregated as aforesaid for a period not exceeding five days from the date on which the group became free from plague. The clothes and effects of the patient and of such persons as have been in contact with the patient shall be disinfected at the discretion of the medical officer in charge.

30. The medical officer in charge of any place appointed for the isolation of any persons under these regulations may, in his discretion, by written order, direct that any person who is kept there under observation shall be allowed to depart and shall be subjected to surveillance.

1. If the system of surveillance to which any person is subjected on shore requires his daily attendance before a medical officer, the Health Officer may, by written order, exempt such person from such attendance on being satisfied that he may be relied upon to send in a prompt report if he should fall sick.

32. Persons subjected to surveillance shall submit to, and comply with all directions as to medical supervision or otherwise, which may be given by written order of a medical officer appointed by the Local Government in this behalf.

PART VI-C.—YELLOW FEVER.

Paris Convention, article 182.

33. In the case of vessels which have started from or touched *en route* at a port infected with yellow fever, the following procedure shall be observed :—

(1) The vessel shall be anchored at sea not less than a mile from the land at low water (in the case of the Port of Calcutta at Diamond Harbour). The visit of the Health Officer shall be made during the day as early as possible.

(2) Any person suffering from yellow fever, if in the first four days of the disease or if there is any doubt about the duration of the disease, shall be protected from the approach of mosquitoes by means of curtains, and, if possible, the sick should be treated on board for at least four days. All passengers in perfect health (with normal temperature, etc,) may be landed, special precautions being taken to prevent mosquitoes having access to them, and shall be kept in quarantine for seventeen days in mosquito-proof houses.

(3) If it is necessary to land the sick, the most minute precautions to prevent mosquitoes reaching them shall be taken, including a mosquito-proof cabin on the launch, mosquito-proof ambulances and a mosquito-proof ward in an isolation hospital.

(4) The crew of the vessel should be required to sleep in airy places, preferably on deck, and should be protected by mosquito curtains.

(5) The ship shall be cleared of mosquitoes by the systematic fumigation,* under efficient supervision, of every cabin, store-room, alley-way and hold.

(6) All water in which mosquitoes could breed should be emptied into the sea and all drains flushed by means of a hose. The bilge should be pumped out or oiled The drinking water tanks should be emptied to get rid of larvæ, fresh water being taken and the tanks completely filled so as to drown any adult mosquitoes which may be present in them.

(7) Provided, if no case of yellow fever has occurred during the voyage only such of the above measures shall be carried out as are considered by the Port Health Officer necessary in the circumstances of the case.

(8) No ship shall leave the anchorage for the purpose of taking up her berth until the measures described in parapraphs (5) and (6) have been carried out.

PART VI-D.—SLEEPING SICKNESS.

34. In the case of a vessel having on board a person suffering, or suspected to be suffering, from sleeping sickness, the person or persons shall not be permitted to land without the specific written permission of the Health Officer.

35. The Health Officer may, pending the receipt of written instructions from the Local Government, permit the landing of such persons only if arrangements can be made for their strict isolation on shore.

Note.—The Health Officer should make a careful examination for enlargement of the lymphatic glands, particularly those in the triangles of the neck. The pulse rate should also be taken. To confirm the diagnosis gland-juice should be taken and examined for the presence of trypanosomes.

PART VI-E.—JIGGER.

36. In the case of a vessel having on board any person or persons suffering from jigger—

(1) the Health Officer shall carefully examine every person on board, and any person or persons found to be suffering may be removed to hospital for treatment;

(2) the clothes of infected persons shall be disinfected, and the Health Officer may, in his discretion, order the disinfection of the clothes, bedding, etc., of all persons on board.

* Sulphurous acid is probably the best gas to use.

(3) any part of the vessel likely to harbour jigger fleas shall be thoroughly washed with a watery solution of kerosene oil emulsion or tar acid emulsion ;

(4) the ballast of such vessel, if of earth or sand, shall not be landed without the permission, in writing, of the Health Officer, who, if he considers it necessary, may order that it shall be discharged into the $\frac{\text{sea}}{\text{river}}$ at such places as shall be appointed for the purpose by the Local Government.

PART VII.—GENERAL.

Vessels.

37. The master of any vessel coming under these regulations shall comply with all directions which the Health Officer may consider necessary under the foregoing rules.

38. The master of any vessel who may object to submit to the foregoing regulations may put out to sea again, provided that objection has been taken before there has been any communication, except by signal or through the port authorities, between such vessel and the shore or with any other vessel in port. Goods may be landed from such vessels after precautions have been taken to isolate the ship, crew and passengers and on condition that such information as the Health Officer may require regarding the mortality among rats is duly supplied : Passengers may be disembarked at their own request, on condition that they submit to all the measures prescribed by the local authorities.

39. In the event of any vessel putting back to sea the Health Officer shall intimate the fact by telegraph to the next port of call.

Persons

40. All persons removed to hospital or kept under observation at any place shall obey and conform to the rules, regulations and orders for the time being in force at such hospital or place and shall be liable to pay all such charges for food as for the time being may, under the sanction of the Local Government, be made against them.

41. When a suspected case of any infectious disease is removed from a vessel at an Indian port, the Health Officer shall report the confirmation or otherwise of the diagnosis, by telegraph, to the Health Officer of the next port of call if that port is in British India, Ceylon or the Straits Settlements. In other cases a note shall be made on the bill of health stating the nature of the suspected infectious disease, and the precautions taken in connection therewith.

Dead Bodies.

42. Disposal shall be as follows :—

(1) If death occurs on board a vessel before entering port limits, the body shall, except there are special reasons to the contrary, be buried at sea in not less than nine fathoms of water, in such manner as shall secure its immediate sinking and remaining below the surface.

(2) If death occurs during the day on board a vessel within port limits the ensign and house flag, if there is one, are to be immediately lowered half-mast and kept in such position from sunrise till sunset as long as the body remains on board If death occurs between sunset and sunrise, one red light is to be hoisted at the peak, half-mast high.

(3) The master of the vessel shall cause the death of a person on board to be intimated forthwith to the police, either by letter or otherwise, and shall forward to the Port Officer a written report as soon as possible after the occurrence, in which all the circumstances attending the death must be fully detailed. Intimation of the death shall also be sent to the Port Health Officer.

(4) No dead body shall be removed from a vessel within port limits without the permission of the police, which shall not be given until the Health Officer has certified that the death is not due to an infectious disease. Such body shall be buried on shore or at sea as may be decided by the Port authorities in consultation with the Health Officer.

Disinfection.

43. All disinfection prescribed by these regulations shall be carried out unless otherwise specifically provided for, in the manner prescribed in the Appendix hereto.

PART VIII.—VESSELS LEAVING PORTS IN BRITISH INDIA, DECLARED BY THE LOCAL GOVERNMENT TO BE INFECTED WITH ANY CONTAGIOUS OR INFECTIOUS DISEASE, FOR PORTS BEYOND INDIA.

44. No vessel shall leave any port in British India for any port beyond India until—

(1) all persons sailing by the vessel, whether as passengers or as members of the crew, have been medically examined by the Health Officer ; Paris Convention, article 16.

(2) in the case of plague—

Paris Convention, article 46.

(*i*) all persons sailing by the vessel, either as passengers or as members of the crew (except onward bound passengers who have not landed and members of the crew, who have not newly joined, who may be examined on board), have been medically examined by the Health Officer on shore by day as shortly as possible before embarkation;

Paris Convention, article 47.

(*ii*) all merchandise or articles of any sort which the Health Officer may consider to be infected with plague have been disinfected on shore previous to embarkation;

(*iii*) all clothing, bedding and infected articles belonging to Asiatic and African members of the crew, not being officers, engineers or doctors, to deck and fourth class passengers, and to third class passengers not entitled to cabin accommodation, which the Health Officer may consider to be infected with plague, and, if the Health Officer thinks fit so to direct, all clothing, bedding and infected articles belonging to passengers of any class higher than the third and to any members of the crew, have been disinfected on shore by day as shortly as possible before being placed on board;

(3) the Health Officer has given to the master of the vessel a bill of health stating that the medical examination and disinfection prescribed by this regulation have been carried out.

In the case of any disease other than plague the Health Officer may, in his discretion, enforce the provisions of clauses 2 (*ii*) and 2 (*iii*) above.

Provided (*a*) that, if the vessel is only making a call at the British Indian port in question, the medical examination and disinfection prescribed by this regulation shall be made only in the case of persons joining the vessel there and articles belonging to them, unless the port is infected and there is communication between the vessel and the shore. The Health Officer shall decide, for the purpose of this proviso, what constitutes communication between the vessel and the shore.

Provided also (*b*) that, in the case of vessels of the Royal Navy and foreign vessels of war, the medical examination prescribed by regulation 44 (1) and (2) may be made by the naval medical officer on board, immediately before the vessel sails, in the presence of the Health Officer. If the Health Officer is satisfied, upon examination of the certificate of such naval medical officer, that all persons sailing by the vessel are free from any disease, he shall countersign the certificate or issue a bill of health.

45. It shall be open to the consular representative interested in any vessel to be present, if he so desires, at the medical examination and disinfection prescribed by regulation 44.

46. If any vessel does not leave port before 6 A.M. (in Calcutta 12 noon) of the day following the medical examination made under regulation 44, she shall not leave until—

(*a*) a fresh medical examination of the passengers and crew has been made under that regulation, and

(*b*) a fresh bill of health has been given to the master under that regulation.

Provided that such fresh examination may be conducted on board the vessel, whether or not there has been communication with the shore since the previous examination was made.

47. If, after a bill of health has been given to the master of any vessel, and before the vessel leaves the port, any cargo or goods of any kind be placed on or taken off the vessel, the vessel shall not leave the port until—

(*a*) such further medical examination and disinfection as the Health Officer may consider necessary have been made under regulation 44, and

(*b*) a fresh bill of health has been given to the master under that regulation.

Provided that such further examination and disinfection may be conducted on board the vessel.

48. (1) After a bill of health has been given to the master of any vessel no person except the pilot shall be permitted to embark on the vessel unless he has been medically examined by the Health Officer as prescribed in regulation 44.

(2) If any such person is permitted to embark, the Health Officer shall amend the bill of health accordingly.

49. Port-clearance shall not be granted for any vessel unless and until the master produces the bill of health prescribed by the foregoing regulations.

Provided that, at any port where, in the opinion of the Local Government, local conditions render this relaxation advisable, the Port Officer may grant port-clearance for any vessel on receiving from the agents of the vessel a written guarantee that a duplicate of such bill of health, signed by the Health Officer, will be furnished by them to him within forty-eight hours.

50. (1) If the Health Officer considers that any passenger is suffering from, or is in the incubation stage of, any infectious or contagious desease, he shall prevent such passenger and his or her relatives and attendants from embarking or sailing : and their baggage and personal effects shall not be allowed on board the vessel and if already placed on board, shall be removed as early as possible.

(2) For the purposes of this regulation, the term "relatives" shall mean such person as have been living with, or have been, in the opinion of the Health Officer, in dangerous communication with the suspected passenger.

51. (1) If the Health Officer considers that any member of the crew of the vessel is suffering from, or is suspected to be in the incubation stage of, any infectious or contagious disease—

(*a*) he shall prevent such member from re-embarking on such vessel and shall refuse to give a bill of health until the baggage and personal effects of such member have been removed from the vessel and such parts of the vessel as have been occupied or frequented by such member have been disinfected ; and

(*b*) the baggage and personal effects of such persons as were in immediate contact with such member of the crew shall be disinfected, and the names of such persons shall be given to the medical officer or master of the vessel for supervision on the voyage.

(2) All action taken under clause (1) of this regulation of the disinfection of a vessel shall be noted in the bill of health.

52. Any person who is prevented by the Health Officer under the foregoing regulations from embarking or sailing, may be removed to and kept at a hospital or kept under observation , or, if any such person gives a genuine address, he may, at the discretion of the Health Officer, be subjected to surveillance for a period not exceeding twelve days.

53. At all ports declared to be infected with plague, proper measures shall be taken to prevent rats obtaining access to vessels (Appendix B). Paris Convention, article 47.

54. Regulations 44 to 53 may, by order of the Local Government, be applied to vessels leaving a port in India for another in India or Burma. Paris Convention, article 34

(*See Regulation 45.*)

APPENDIX A.

INSTRUCTIONS FOR DISINFECTION.

Paris Convention, article 197 (note).

1. Personal effects, such as rags, bandages, papers and other articles without value which, in the opinion of the Health Officer, are deemed likely to carry infection, should be destroyed by fire.

2. Under-clothing, bedding, wearing apparel, mattresses, carpets, etc., which are contaminated or *suspected*, and other articles to be disinfected, should be exposed for 15 minutes to saturated steam—under pressure if possible—at a temperature of not less than 100° C. (212° F.) care being taken that the steam shall reach all parts of each article to be disinfected.

3. *Disinfecting Solutions*—

(*a*) Solution of corrosive sublimate of 1 part in 1,000 with the addition of 2 parts in 1,000 of hydrochloric acid or 160 grains of chloride of soda in one gallon. The solution should be coloured with aniline dye or indigo. It should not be placed in metal vessels.

(*b*) A 5 per cent. solution of pure crystalized carbolic acid, or 5 per cent. of crude commercial carbolic acid free from tar oils, in a warm solution of soft soap.

(*c*) Freshly prepared lime-wash,*

(*d*) Tar acid emulsion in such strength as shall be recommended by the Port Health Officer.

4. *Special instructions to be observed in the employment of disinfecting solution.*—The linen, clothing and articles soiled by the excreta of patients should be soaked in the solution of corrosive sublimate. The solution of pure carbolic acid and the solution of soap and carbolic acid are equally suited to the purpose. The articles should remain in the solution for at least six hours.

Articles which cannot be subjected to the temperature of 212° F. without injury, as leather goods, wooden articles stuck together with glue, felt, velvet, silk, etc., should be washed with a disinfecting solution or should be exposed for two hours to the fumes of Formaldehyde in a fume chamber; coins can be disinfected with the solution of soap and carbolic acid. Persons engaged in nursing the sick should wash their hands and faces with one of the carbolic solutions. The carbolic solutions will be useful more particularly for disinfecting articles such as metal or instruments, which can neither be subjected to a temperature of 212° F. nor placed in contract with corrosive sublimate. Slaked lime is particularly recommended for disinfecting excreta. Expectorated matter should be burnt.

5. *Disinfection of ships on which plague has occurred among human beings or rats.*—All rats on board shall be destroyed by means of sulphurous anhydride. The cabins, etc., occupied by the sick or those suspected to be suffering from plague shall, at the discretion of the Health Officer be treated with a solution of corrosive sublimate or other suitable disinfectant and thoroughly cleansed with soap and water. In the case of pneumonic plague preliminary disinfection with corrosive sublimate solution shall be invariably carried out.

6. *Disinfection of the hold of an infected ship.*—The bilge-water shall be pumped out, and the hold washed with sea water, a sufficient quantity of a solution of corrosive sublimate or other suitable disinfectant being subsequently thrown in at the discretion of the Health Officer The bilge-water shall not be pumped out when the vessel is in harbour without the written consent of the Health Officer.

---

* The lime wash should contain 20 per cent. of lime, and may be prepared as follows:—Take 4 pounds of good quick-lime and slake it by moistening it gradually with about half a pint of water. When the operation is completed the resulting powder must be kept in an air-tight vessel in a dry place.

For use, the quantity of slaked lime obtained from 2 pounds of quick-lime should be placed in a convenient vessel and water added to make one gallon.

APPENDIX B.

MEASURES TO BE ADOPTED TO PREVENT RATS OBTAINING ACCESS TO VESSELS.

1. There shall be a space of at least three feet between any part of the vessel and the wall of the dock or wharf.

2. All ropes and hawsers connecting the vessel with the dock or wharf shall be furnished with a circular concave-convex rat-guard at least four feet in diameter fitting tightly, with the concavity towards the wharf, on the rope or hawser, and so fixed that no part of the margin of the guard shall be less than 24 inches from the rope or hawser.

3. To prevent rats reaching the ship by means of a gangway, as few gangways shall be used as possible; all gangways shall be raised at night; and a watchman shall be placed on each gangway during the day from the time the gangway is lowered until it is raised.

4. A responsible person shall be deputed by the Local Government to ensure these measures being applied immediately the vessel is berthed.

The 27th April 1911.

No. 51 Marine.—Intimation having been received of the outbreak of plague in Bushire, it is hereby notified, for general information, that it is declared an infected port, and that the regulations for the prevention of the introduction of plague by sea, issued by this Government, will be enforced in the ports of Orissa against vessels arriving from Bushire.

No. 103 T.M.—The 25th April 1911.—The following draft of rules which have been framed by the Commissioners of the Motihari Municipality, under sections 237 (2) and 241 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and which the Lieutenant-Governor in Council proposes to sanction under clause (2) of section 241, is published for the information of persons likely to be affected thereby.

2. The draft rule will be taken into consideration on the 5th June 1911, and any objection or suggestion received by the undersigned through the Magistrate before that date will be duly considered.

H. WHEELER,
Secy. to the Govt. of Bengal.

Draft rules made under sections 237 (2) and 241 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), for the Motihari Municipality.

1. (*a*) Every person intending to erect or to re-erect any house not being a hut shall give notice in writing of his intention to do so to the Commissioners of the Municipality.

(*b*) A form of notice is attached to these rules, and printed forms of such notice can be obtained on application to the Municipal Office.

(*c*) No notice shall be required in the case of houses to be erected or re-erected by Government other than houses of the nature of conservancy or drainage works or which will be connected with any conservancy or drainage works of the Municipality.

2. (1) Every such person shall submit with such notice a site-plan of the land.

(2) In the case of houses with terraced roofs of one or more storeys, or of houses costing not less than Rs. 300, such plan must be drawn to a scale of not less than 10 feet to an inch, and must show—

(*a*) the position of the house and the appurtenant out-buildings and privy with reference to adjoining public roads and drains, or, if no public road adjoins the premises, then with reference to the nearest public road and drain or drains;

(*b*) the area to be occupied by the house and out-building or out-buildings on the land;

(*c*) the name or description of the adjacent road and of the *mahallah* in which the land is situated, and the number of the holding, if any; and

(*d*) the provision for ventilation, light and drainage.

(3) If the applicant satisfies the Commissioners that the house will be less than Rs. 300 in value, such plan must show, to the satisfaction of the Commissioners, the size and nature of the house and out-buildings, including privy, if any, and its and their position on the land; also the position of the land with reference to the nearest road and drain and adjacent buildings or lands and the provision for ventilation, light and drainage.

3. On the receipt of the notice and plan referred to in rules 1 and 2, the Commissioners shall consider the same and shall have power to refer the same to such person or persons for enquiry and report as they may consider necessary.

4. The external walls of such houses shall be constructed of masonry, sun-burnt bricks, mud or other non-inflammable material; and in no case shall an external wall abutting on a public road or drain be less than two feet therefrom.

5. The roof of such houses shall be covered with masonry, earthenware tiles, slates, corrugated iron sheets, or a combination of any of those materials.

6. Every projection beyond the line of any external wall of any such house shall be constructed of masonry, iron, wood or earth, and shall nowhere overhang a public road or drain.

7. Provision shall in every case be made, so that any drainage from a terrace or masonry roof and from the floor of any such house shall be led off to the level of the public drain in such a manner that no damage to the said drain or to any public road and no inconvenience to the public is caused thereby.

8. No privy or urinal in, or adjacent to, a house not being a hut shall be placed at a distance of less than—

(*a*) twelve feet from any other building which is a public building; or

(*b*) six feet from any other building which is, or is likely to be, used as a dwelling place, or as a place in which any person is, or is intented to be, employed in any manufacture, trade or business. And no privy shall be constructed having its service aperture in any external wall, unless such service aperture is effectually screened by a wall which shall not be less than 4 feet from such external wall

9. A space of not less than 6 feet must be left about every such house, to secure free circulation of air and facilitate scavengering.

10. Models and plans of privies, and urinals approved by the Commissioners with estimates of the cost of construction, shall be kept in the Municipal Office, and shall be open to inspection by any person at all reasonable times without charge; but no person shall be bound to construct any privy or urinal in accordance with any such models or plans, if the same be constructed in accordance with other rules contained herein.

11. (1) A drain must be provided for every privy and every urinal.

(2) Such drain must be constructed of some impervious material and must connect the floor of the privy or urinal—

(*a*) with a drain communicating with a municipal drain or sewer, or

(*b*) if permitted by the Commissioners, with an impervious cesspool the contents of which can be removed either by hand or by flow, after filtration.

12. (*a*) The floor and platform of every privy and urinal shall, if the Commissioners in any case so direct, be made of one of the following materials to be selected by the owner of the privy or urinal, that is to say, metal glazed tiles, stone, artificial stone, or cement or a combination of any two or more of these

(*b*) Or, if no such direction is given, shall be made of thoroughly well-burnt bricks properly pointed with cement and shall be in every part at a height of not less than six inches above the level of the surface of the ground adjoining the privy or urinal.

(*c*) The floor of every privy and every urinal shall have a fall or inclination of at least half an inch to the foot towards the drain prescribed by rule 11; and the platform shall similarly slope towards the aperture.

13. The walls of every privy and urinal shall be made of such materials as may be approved by the Commissioners

Provided that the whole of the structure up to the top of the platform shall be of *pucka* masonry pointed with cement on the interior faces.

14. Every privy or urinal situated in, or adjacent to, a house not being a hut shall have an opening of not less than three square feet in area in one of the walls of the privy as near the top of the wall as may be practicable, and communicating directly with the open air.

15. Every privy shall be constructed in accordance with the following provisions:—

(*a*) The platform shall be provided with two apertures so arranged that solid and liquid excreta can fall into separate receptacles placed underneath, as provided in the following paragraphs:—

(*b*) The space underneath the platform of the privy shall be of such dimensions as to admit of two moveable receptacles for solid and liquid excreta each of a capacity not exceeding one cubic foot, being placed and fitted underneath the platform in such manner and position as will effectually prevent the deposit otherwise than in such receptacles of any sewage falling or thrown through the aperture of the platform.

(*c*) The privy shall be so constructed as to afford adequate access to the place for the purposes of cleaning and removing therefrom and placing again the receptacle for sewage.

(*d*) The said receptacles shall be watertight, made of metal or glazed stoneware or well-tarred earthenware.

(*e*) The service aperture of every privy shall be provided with a door completely covering the aperture, and shall not open on to any road or lane, or be offensive to any neighbour.

NOTICE.

CORPORATION OF CALCUTTA.

CLAUSE 38 of the bye-laws under section 559 (34) of the Calcutta Municipal Act, regulating the use of Municipal slaughter-houses, which were sanctioned by the Local Government in 1903 and are at present in force, reads as follows:—

"The owner of an animal kept in any pen for any purpose shall bear all charges for its keep, and he shall be allowed to feed it and to employ his own servants, if necessary, for that purpose and shall obey all orders and directions given by the Superintendent."

The General Committee propose to amend this clause so as to read as follows:—

"The owner of an animal kept in any pen for any purpose shall bear all charges for its keep, and he shall supply such animal or cause it to be supplied with wholesome food and water on every day between 6 and 8 o'clock in the morning and 6 and 8 o'clock in the evening."

Notice of the proposed amendment is given in accordance with the provisions of section 565 of the Calcutta Municipal Act. Objections will be received up to Monday, the 5th June 1911, after which the matter will be further proceeded with.

THE INDIAN LAW REPORTS

Published in FOUR SERIES, viz

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books United Provinces of Agra and Oudh, Allahabad

BIHAR SCHOOL OF ENGINEERING.

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" Class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers, Overseers and Upper Subordinates.

Students are prepared for the examinations conducted by the Joint Technical Examination Board.

4. The next session will commence on 3rd July 1911.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. Government scholarships of the value of Rs. 7 a month tenable for one year, are awarded each year on the results of the annual examination, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class.. Of the scholarships attached to the school, 75 per cent. are to be reserved for those students who are Biharis by race. The teaching is in English

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and Mathematics.

(2) The equivalent Test Examinations for European schools.

(3) Students who have not passed any of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the University Matriculation examination in these subjects) to be held at the school, on the 3rd and 4th July, respectively, from 10 A.M. to 1 P.M. each day.

7. All applications for admission must reach the Principal not later than the 28th June. Applicants must give the following particulars:—

(*a*) Name, address, and occupation of father or guardian.

(*b*) Race and religion. (A domiciled Bengali must produce evidence to show that his father, with his family, has taken up their permanent residence in Bihar.)

(*c*) A certificate of good moral character from last head-master.

(*d*) An attested certificate of age (showing that he is under 20 years of age).

(*e*) A medical certificate showing him to be fit for employment in the public service.

(*f*) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re 1. An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. He will not be admitted to the workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of elementary surveying and the other subjects taught in the Amin class may, at his option, leave the school with an Amin certificate.

All candidates for the Amin class, will be examined at the school on the 3rd July; candidates failing at this examination will not be admitted. The subjects of the examination are dictation and elementary mathematics of about the middle vernacular standard.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 3rd July 1911 unless application for admission is made before 28th June 1911.

10. There is a hostel in connection with the school. The fees are Re. 1-8 for room and Re. 1 for light. Students make their own mess arrangements. Students joining the Overseer classes must reside in the hostel unless they are residents with parents or with nearly related guardians, whose homes are near enough to enable them to attend the school at the required times. The Principal will decide whether a student should reside in the school hostel, or whether the guardian proposed can be accepted as such.

11. The initial expenses for books, instruments, etc., for a student joining the Overseer Department are as follows :—

		Approximate cost. Rs.	A.
Books	... ...	10	0
Drawing instruments ...	... ...	25	0
Workshop deposit ...	... ...	10	0
School and Hostel admission-fee	for Biharis ...	3	8

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad

POLITICAL DEPARTMENT.

POLITICAL.

The 8th May 1911.

The following letter is published for general information.

C. J. STEVENSON-MOORE,
Chief Secy. to the Govt. of Bengal.

No. 503P.D., dated Darjeeling, the 8th May 1911.

From—THE HON'BLE MR. C. J. STEVENSON-MOORE, I.C.S., Chief Secretary to the Government of Bengal,

To—The Commissioner of the Presidency Division.

I AM directed to acknowledge the receipt of your letter No. $7\frac{Mis.}{G.}$, dated the 10th April 1911, in which you report that Babu Behari Lal Mitra, of Pathuriaghata, Calcutta, has recently forwarded a cheque for Rs. 25,000 as the first instalment of the donation of Rs. 75,000 already offered by him to the building fund of the "Refuge" at present located in No. 125, Bowbazar Street, and that the cheque has been made over to Mr. A. M. Biswas, Superintendent of that institution.

2. I am to request that you will be so good as to convey to Babu Behari Lal Mitra an expression of His Honour the Lieutenant-Governor's high appreciation of his liberality and public spirit.

RESOLUTION ON THE BUDGET ESTIMATE OF THE HOWRAH BRIDGE FOR THE YEAR 1911-1912.

No. 41 I'—Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Darjeeling, the 6th May 1911.

RESOLUTION.

Budget Estimate of the Howrah Bridge for the year 1911-12.

READ—

Letter No. 370, dated the 12th April 1911, from the Vice-Chairman of the Commissioners for the Port of Calcutta, submitting the Budget Estimates of the Howrah Bridge for the year 1911-12.

Receipts.—The receipts for the year 1911-12 have been estimated at Rs. 2,34,000 as compared with Rs. 2,30,800, the estimated receipts for 1910-11. They show a small increase of Rs. 3,200. An increased income of Rs. 4,800 over the estimate of last year is anticipated from the East Indian Railway goods traffic, this being the principal source of income of the bridge.

2. *Expenditure.*—The total expenditure of the year is estimated at Rs. 2,29,199, as against Rs. 2,28,949, the estimate for last year. The provision for maintenance and repairs of the bridge is nearly as large this year as it was in the previous year. The current year is expected to close with a small credit balance of Rs. 4,801, as against Rs. 1,851, the anticipated closing balance of 1910-11.

3. The Lieutenant-Governor in Council accepts the estimate under section 21 of the Howrah Bridge Act, IX of 1871.

By order of the Lieutenant-Governor in Council,

T. BUTLER,

Secretary.

General Summary.—During the week under review rain fell in Singhbhum, Cooch Behar and in all the districts of the Burdwan, Presidency, Bhagalpur and Orissa Divisions except Howrah, 24-Parganas, Monghyr and Puri. There was no rain in the rest of the Province. The fall was heavy in parts of Nadia, Jessore, Darjeeling, and generally light elsewhere. Preparation of lands for the next season's crops and sowings of paddy and jute are going on. But more rain is wanted in Howrah, the 24-Parganas and Ranchi. The standing crops are doing well. The price of common rice has risen in Burdwan, Bankura, Nadia, Jessore, Shahabad, Darbhanga, Monghyr, Purnea, Darjeeling and Cuttack and has fallen in Patna, Bhagalpur and Ranchi. Cattle-disease exists in Burdwan, Patna, Shahabad, Puri, Sambalpur and in all the districts of the Bhagalpur and Chota Nagpur Divisions except Darjeeling and Singhbhum. Fodder is insufficient in Monghyr and Hazaribagh. Scarcity of water is reported from the latter district and also from Ranchi.

ESTABLISHMENT.

The 16th May 1911.

No. 92.—Mr. E. E. Desbruslais, Assistant Engineer, Cossye Division, is granted, under article 260 of the Civil Service Regulations, privilege leave for three months, with effect from 1st May 1911, or such subsequent date as he may avail himself of it.

T. BUTLER,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

The 15th May 1911.

No. 4.—Notification.—The following draft of a notification which the Lieutenant-Governor in Council intends to issue under sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), for the Sone Canals, is published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on the 1st July 1911, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

T. BUTLER,
Secy. to the Govt. of Bengal.

Draft Notification.

In exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act, III of 1876), and in supersession of all previous notifications under those sections for the Sone Canals [except Notification No. 148, dated the 20th June 1881, published at page 637 of Part I of the *Calcutta Gazette* of the 22nd June 1881, which shall remain in force for the purposes of rule 71 (*g*) annexed to the present notification], the Lieutenant-Governor in Council is pleased to make the following rules for the Sone Canals.

GENERAL CONDITIONS.

1. The Collector, before awarding compensation under section 16 or 76 (*c*) or making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of proceedings.

2. Except as provided in Act III (B.C.) of 1876 (the Irrigation Act) and these rules, no appeal shall lie from any order passed by a Canal Officer or the Special Deputy Collector in charge of the Revenue Division of the Sone Canals who has been vested with the powers of a Collector under the aforesaid Act. The Sub-Divisional Canal Officer, however, shall modify any order passed by him in accordance with the orders of the Divisional Canal Officer. The Sub-Divisional and the Divisional Canal Officers and the Special Deputy Collector in charge of the Revenue Division of the Sone Canals, shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer. The Superintending Canal Officer is empowered, and expected, to exercise a general control over the proceedings of all Canal Officers and of the Special Deputy Collector, the Sub-Deputy Collectors, and all other officers attached to the above-mentioned Revenue Division of the Sone Canals.

3. It will be the duty of the Superintending Canal Officer to issue orders on the following points:—

I.—The limits within which water will be available during the *kharif* season—(*a*) for annual leases; (*b*) for leases for a term of years.

II.—The distributaries from which water will be supplied during the hot season.

III.—The distributaries from which water will only be supplied during the *rabi* season at the rate (*see* Schedule III) ordinarily charged.

IV.—On sufficient cause being shown, to prohibit the issue of permits for the irrigation of land in specified localities generally or during the *kharif* season only.

Such public notice as is practicable will be given of the instructions under this rule as long as is possible before they are enforced.

4. Appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 37, will ordinarily be from an order passed by the Divisional Canal Officer. The Collector may, when the order passed involves (I) the alignment of a village channel, (II) the refusal of the Divisional Canal Officer to accept a block as suitable for the issue of a permit for *kharif* irrigation, require the Superintending Canal Officer to state his opinion in writing, which shall form part of the record of proceedings in the case.

ON VILLAGE CHANNELS.

5. The Canal Officer shall prepare a list of channels which, previous to the 1st of April 1891, have been ordinarily used as village channels, and enter them in a register prepared in the manner prescribed in Part V of the Act.

6. A village channel which was constructed after the 1st of April 1891, or which had not ordinarily been used as a village channel before that date, shall not be entered in the register except at the written request of the owners of it. Water shall not be supplied for irrigation during the *kharif* season through any channel other than one which has been entered in the register.

7. Village channels which may be constructed in future shall not as a rule exceed one mile in length; the length being measured in a straight line from the outlet to the boundary of the part of the village which the channel is intended to irrigate.

8. The sum fixed by the Canal Officer as rent under section 68 of the Act shall not be less than half an anna, and shall not exceed four annas per bigha assessed with water-rate.

ON LAMBARDARS.

9. In every permit issued under section 75 of the Act other than those issued under rules 18 or 19 following, the name of one or more persons shall be entered as *lambardar*, who will be responsible for discharging the duties mentioned below :—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area on any channel is complete.

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer or subordinate, and giving information required in connection with the same.

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 20th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season, so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of leases for a term of years.

IX.—Assisting the Collector by generally helping the collecting staff in the collection of water-rates.

(*See* also Superintending Engineer's Circular No. 7 of 1895.)

10. In the case of leases for the season, the remuneration for performing the duties mentioned in clauses I to VII and IX of the rule immediately preceding shall be 2 per cent. on the assessments (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

11. In the case of leases for a term of years, other than those entered into jointly with contractors, the remuneration to be paid to the *lambardar* for performing the duties mentioned in clauses I to IX of Rule 9 shall be 3 per cent. yearly on the assessment of the year (excluding fractions of rupees), which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

12. The *lambardar* will be appointed by the Sub-Divisional Officer in consultation with the applicants for the lease, and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants, or to a number of persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for a term of years, the *lambardar* shall be nominated by the contractor.

13. The Divisional Canal Officer may, for reasons which appear to him to be sufficient, and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

14 The Divisional Canal Officer may, with the consent of the *lambardar*, by a written order, of which the *lambardar* shall be furnished with a copy, transfer to him the duty of controlling the supply of water through an outlet, and may, at any time, by a written order, recall such order *Lambardars* to whom such control is transferred shall exercise such power, subject to such general written orders as they may receive from the Sub-Divisional Canal Officer, and shall receive one per cent. on the assessment in addition to the percentages prescribed in Rules 10 and 11

15. The fees sanctioned to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer may retrench the whole or any part of the fees payable by him in the event of this condition not being complied with. In calculating the fees payable, fractions of an anna will be excluded.

(*See* Superintending Engineer's Nos. 3126—28 of 4th July 1896 with reference to retrenchments.)

ON APPLICATIONS.

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharif* season leases (Appendix III), shall be subject to the following conditions :—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether water or no water is required.

III.—The applications may be for a term of years, or for the season only—

(*a*) In case of application for the season only, the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application, which must be signed by, or by authority of, the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement. An application for a permit for the season must be filed by the 1st September, but with the Superintending Engineer's sanction an application for a season lease may be entertained up to the end of the season

(*b*) In the case of applications for a term of years, a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. All the leases within one group (a 'group' being defined as in Note II) shall be so granted as to expire on the same date. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made, which will be cancelled on a permit for a term of years being issued.

NOTE I.—Superintending Engineer's Nos. 2940—42 of 26th June 1896 directs that "if applicants for a long-term lease, which is not signed before the 15th August, decline to apply for a season lease under Rule III*b* by that date, they should be informed that the long-term lease will not be granted during the year."

NOTE II.—A group is defined as consisting of a certain area of country mapped out in accordance with the features of the ground, natural or artificial.

NOTE III.—The leases granted for a term of years in a group will take effect from 1st April 1910.

(*c*) Notice that a permit for a term of years is required must be given by the 1st of April, but with the Superintending Engineer's special sanction the time may be extended where reasonable cause for the delay in filing the application for a long-term lease can be established. No permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following.

NOTE.—Superintending Engineer's Nos. 1649—51, dated 13th April 1892.

IV.—With the special sanction of the Superintending Canal Officer an application may be made for an addition to a lease for a term of years, which, if granted, shall be considered as part of the original lease and terminate therewith.

16A. Applications (Appendix IVC) for a single watering between 26th June and 25th October may be entertained if water is available after meeting the demand for the areas leased under a term of years or for the season. The applications will be subject to the conditions prescribed for the *rabi* and hot weather seasons: see rule 17 below

17. Applications for irrigation in the *rabi* season, 26th October to the 25th March, and the hot weather season, 25th March to the 25th June (Appendices IVA and B), will be subject to the following conditions:—

I.—The approximate areas of land for which water is required must be stated in the application, which must be signed by the occupiers thereof. It must be stated in the application that the water-rates will be paid on the area actually irrigated.

18. Applications for the sale of water by volume for purposes of irrigation will only be entertained on condition that half the amount chargeable is paid to the Sub-Divisional Canal Officer when the application is filed, and that a bond is executed in the form attached to these rules as Appendix V signed by substantial persons pledging themselves to pay such sums as will in the aggregate make up the remainder. The bond will not have reference to the area to be irrigated, but will be in consideration of a particular outlet being kept open for a specified time, and the sums mentioned therein will be recoverable on the certificate of the Canal subordinate that this condition has been fulfilled. Water will be supplied under this rule from the 1st of July to the 31st of October only.

19. Applications for the sale of water by volume for filling *aharas* will be in the form attached to these rules as Appendix VI. The entire charge will be payable in advance. Water will be supplied under this rule from the 1st of November to the 25th of March only.

ON PERMITS.

20. All permits for the use of water issued under section 75 of the Act shall be subject to the following conditions:—

I.—That the water is supplied for the sole purpose of irrigating the land mentioned in the application. The term "irrigating" includes the right to drain (*nigar*)

at the proper season of the year, previous notice being given to the sectional officer that the outlet is required to be closed. Under colour of *nigaring*, however, no right is conferred to irrigate culturable land for the purpose of sowing a crop or maturing any existing crop.

II.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off, and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred unless existing appliances admit of it.

III.—That a *lambardar* shall be appointed in the manner specified in Rule 12 to represent the interests of the cultivators and to perform the duties mentioned in Rule 9.

IV.—That the village channel from which water is supplied is kept in a proper state of repair, so that water shall not be wasted.

V.—That water-rates are paid when due.

VI.—That water supplied for the irrigation of a specified block of land shall not, under colour of the permit, be utilized for the irrigation of land beyond the boundaries specified in application.

NOTE.—Where these conditions are infringed, appropriate penalties or disabilities to the extent specified in the Act or these rules will be enforced.

21. A permit shall not be issued where, in the opinion of the Canal Officer, waste is likely to occur. In the order refusing a permit on this ground, the manner in which it is apprehended that waste will occur shall be stated.

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharif* season leases (Appendix IX) shall be issued under the following conditions:—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to preclude the possibility in ordinary circumstances of water escaping from the boundaries without obvious wilful cutting or demolition. They must be maintained in the same state of repair during the currency of the lease as existed when the permit was granted and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 18(*c*), when a permit for a lease for a term of years is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for a term of years, the block must be not less than 50 bighas in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for a term of years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair; such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available, and that the quantity required is not excessive.

III.—A permit for a lease for a term of years may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

IV.—Permits for the season will be issued under less favourable conditions as to situation, soil and quantity of water available; it will not be necessary that the owner of the channel should be registered, but the channel itself must be entered on the register.

V.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

22A. Permits (Appendix XI) for a single watering during the *kharif* season from 26th June to 25th October may be issued under the conditions prescribed in Rule 23 (I) (II) (III) below, if water is available after meeting the demands for the areas leased under a term of years or for the season.

23. Permits for irrigation in the *rabi* and hot weather seasons, 25th October to 25th June (Appendix X), will be issued on the following conditions:—

I.—The applicants will undertake to give the *lambardar* notice to close the outlet as soon as the area requiring irrigation has received a sufficient supply of water.

II.—The applicants will undertake, as far as is practicable, to prevent water supplied being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated, and not on those specified on the application.

ON DISABILITIES AND PENALTIES.

24. At the request of the Collector, the Superintending Canal Officer may direct the Divisional Canal Officer to—

I.—Cease to issue permits for the irrigation of land in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially required, unless half the amount due for the ensuing year under future applications are paid up in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any lease for a term of years if, after the lapse of one month from the latest date of payment, the water-rates (except such as are irrecoverable under Rule 63) are in arrears.

25. The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease for a term of years if water is habitually misused or wasted. Such an order shall have effect from the 25th June next ensuing, and two months' notice at least must be given to the *lambardars* for the information of the cultivators.

25A. When the Divisional Canal Officer acting under section 60 strikes a channel supplying a long lease off the register, he shall, if the remaining registered channels cannot satisfactorily irrigate the block, at the same time cancel the lease, provided that—

(*i*) If the order for cancellation be made between the 25th of June and the 25th of October no water-rate shall be payable for the period subsequent to the 25th June preceding the date of the order.

(*ii*) If the order for cancellation be made between the 25th June and 25th March, half the annual rate will be payable for the period subsequent to the 25th June preceding the date of the order.

ON THE SUPPLY OF WATER.

26. I.—Any Canal Officer may, in the case of pressing emergency, stop the supply of water to any canal or distributary. If such order is passed by an officer below the rank of a Divisional Canal Officer, it shall forthwith be reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, to the Superintending Canal Officer.

II.—The Sub-Divisional Canal Officer may, by written order under section 76*a*, stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that either it, or, in case the channel is supplying a long-term lease, the boundaries of such lease are not maintained in proper repair. Such order shall be recorded in the Sub-Divisional office.

III.—No person shall be entitled to be supplied with water until the village channel has been put in a proper state of repair in accordance with directions given by the Sub-Divisional Canal Officer.

IV.—The Canal Officer or any of his subordinates may temporarily close an outlet supplying a village channel from which unauthorized irrigation is, at the time the outlet is closed, being carried on.

27. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. The periods of such closures must be notified to the *lambardars* concerned.

28 No water shall be supplied nor shall any person be entitled to a supply of water until a permit signed by a Canal Officer authorized to sign a permit has been signed and issued.

29. The Canal Officer will be responsible that the supply through the outlet is in the *kharif* and *rabi* seasons maintained in accordance with the requirements of the crops. In both seasons it will be the duty of the *lambardar* to inform the Canal Officer or subordinate when the area under lease has been fully irrigated, so that the outlet may be closed, or if he has, under rule 14, been given charge of the outlet, to close it himself.

ON DEMAND STATEMENTS.

30. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and stamped signature of the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

31. The demand statements for water-rates due under leases for a term of years shall be prepared at the same time as the application, and a copy thereof shall be given to the *lambardar* as well as a *parcha* for each signatory to the lease with the permit. No further notice of demand shall be given during the currency of the lease.

32. The demand statement for water-rates due under a lease in the *kharif* season shall be prepared either before the permit is issued, or as soon as conveniently may be after its issue, and shall, without reference to the land having been actually irrigated up to that time

or not, show the water-rates due by each person whose land is included in the application. Demand statements (*parcha*) showing the sums due from each applicant shall be sent to the *lambardar* for distribution, and no further notice of demand shall be given.

33. For irrigation during the hotweather or *rabi* season, the following procedure shall be followed:—

I.—The area irrigated in any village shall be measured by an amin appointed for the purpose. The *khasra* shall be signed by both the amin and the *lambardar*, who shall be present at the measurements. If the *lambardar* is not present, the amin shall arrange that at least two respectable cultivators shall be present and enter their names in the *khasra* prepared by him.

II.—When the measurement is completed, the *khasra* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the demand statement (*khatiani*) with all possible despatch. Copies of extracts of the demand statement affecting each separate cultivator (*parchas*), signed and sealed by the *zilladar*, shall, as soon as prepared, be forwarded to the *lambardar* for distribution amongst the persons charged. The *lambardar* shall grant a receipt for the *parchas* forwarded.

III.—If the *lambardar* is not present, or declines to grant a receipt for the same in the prescribed form, the Sub-Divisional Canal Officer shall make other efficient arrangements for serving each person assessed with a *parcha* showing the amount due from him. *Parchas* may be sent by post.

34. Objections to the demand statements prepared in accordance with the preceding rules 31, 32 and 33 may be presented, either personally or through the *lambardar*, to the Sub-Divisional or Divisional Canal Officer, who shall thereupon, after such enquiry as he may consider to be necessary, pass orders on the same. A copy of the order passed (which may be sent by post) shall be served on the person making the objection. Objections to the demand addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

35. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* was received by the *lambardar*, but this period shall be extended where reasonable cause for delay can be established.

36. The objections may be in a form, which will be sold for half-an-anna at all Canal offices, giving instructions as to the particulars required to admit of the objections being readily investigated; but any form will be accepted provided it clearly states the name or names of the persons objecting, the crop, and the year for which the charge is made, and the demand from each cultivator to which objection is taken.

37. Any person not satisfied with the order passed by the Canal Officer under rule 34 may file an application of appeal to the Collector under section 91 of the Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and shall meanwhile have discretion to suspend collections by a written order in cases where it may seem advisable to do so.

38. When the order appealed against to the Collector is that of a Sub-Divisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained for the purpose of enabling the Divisional Canal Officer to make further enquiries which, however, may be directed by the Collector on the suggestion of the Divisional Canal Officer or on his own motion.

39. Applications for mutations of names in leases for a term of years shall be made to the Collector; if addressed to the Canal Officer they shall be referred to the Collector for disposal. Applications for alterations in long-term leases on account of wrong assessment shall be made to the Divisional Canal Officer; if presented to the Deputy Collector they shall be referred to the Divisional Canal Officer for disposal.

39. (*a*) When the mutations of the names of rate-payers are found to be more than 30 per cent. of the whole, the Deputy Collector will request the Divisional Canal Officer to prepare and forward a revised demand statement. The same rule applies for other crops.

ON WATER-RATES.

40. Water-rates imposed under section 79 of the Act for the irrigation effected in the hot weather or *rabi* seasons, shall be assessed by the Canal Officer at rates which shall be fixed by the Divisional Canal Officer, and which shall not be greater than those shown in the following schedule:—

	Flow or Lift.	
	Rate per bigha.	Rate per tenth of a bigha.
	Rs. A.	A.
For water used in an unauthorized manner.	6 4	10

In the *kharif* season water-rates shall be imposed by the Divisional Canal Officer under section 79 *only* after the sanction of the Collector has been obtained to make a detailed measurement of the land irrigated without authority.

NOTE. Areas irrigated by *bond fide* surplus water drained off from a leased area shall not be assessed. *Bona fide* waste is defined as water drained off the fields while the outlet remains closed.

The Collector's sanction is not in itself authority for the imposition of water-rates—it merely authorizes proceedings being instituted. The rates to be charged in the *kharif* season will be subject to the same maxima as in the hot weather and *rabi* seasons. Persons using water without a permit shall, unless exempted by section 74 of the Act, be charged water-rates according to the season in which water is used, at the rates specified in this rule.

41. Charges for waste of water imposed under section 80 of the Act shall be at the rates fixed in the rule immediately preceding, and be subject in the *kharif* season to the same condition as regards sanction by the Collector as is required by that rule; where a tank or *ahara* has been filled, a charge of Rs. 5 per thousand cubic yards may be made in lieu of an acreage charge.

42. Water-rates assessed under sections 78, 79 or 80 of the Act shall be paid on or before the dates mentioned below:—

For leases for a term of years entered into after the 1st January 1898.	One kist on or before the 15th January.
Season leases—	
Under Schedule No. II	... For rice and sugarcane on or before the 15th December. For a single watering, on presentation of the demand.
Ditto No. III	... *Rabi* and sugarcane on or before the 5th April.
Ditto No. IV	... Hot weather irrigation on or before the 1st July.
Assessments under section 79 of the Act or under Rule 40.	On presentation of the demand.
Assessments under section 80 of the Act	
Water supplied by volume between the 1st of September and 31st of October.	One moiety before the outlet is opened, the other moiety on or before the 15th December.
Water supplied by volume to fill *aharas*	... The whole amount before the outlet is opened.

The Divisional Canal Officer shall forward the demand statements of leases under Schedule No II to the Collector as soon as they have been prepared in accordance with rule 82. He will forward these and all other demand statements as soon as they are ready and will endeavour to send them at least fifteen days before the latest dates fixed for the payment of the water-rates, but accuracy in the individual charges shall be regarded as of more importance than a rigid adherence to dates.

43. Where lands are held on a *bhaoli* tenure, the entire water-rates assessed under section 78 of the Act shall be demandable from the occupiers of the land assessable; but at the written request of the *bhaoli* owner, in the form, Appendix VII, which may be presented to the Divisional Canal Officer or to the Collector, the water-rates shall be recovered from the cultivators and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them. The demand statement shall be made out by the Divisional Canal Officer in the name of the cultivators, any necessary modification therein, owing to a request made by a *bhaoli* owner under this rule, being carried out by the Collector. But on lands under Government management half the rates should be paid by the landlords, and in other cases any influence which the Collector may possess should be used to make the zamindar consent to this equitable arrangement.

44. In the case of lands held under a *bhaoli* tenure being assessed under section 79 of the Act, the whole of the persons deriving benefit therefrom shall be assessed in the same proportion as the produce is divisible amongst them.

ON REMISSIONS.

45. The water gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

46. Claims to remission of water-rates under section 76(*b*) shall only be admitted on proof of actual loss caused by failure of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any part of the rates. All applications for remission of water-rates shall be made in the manner provided in rule 34 and not less than twenty days before the crop is cut. The Divisional Canal Officer, with the previous sanction of the Superintending Canal Officer, which sanction may be delegated to any Divisional Canal Officer, when the crop of an individual cultivator of a season lease has failed to the extent of losing twelve annas or more of its value in the rupee, may, as a matter of grace, grant remission up to 10 per cent. of the area assessed against the cultivator, notwithstanding that the deficiency in the crop is due to causes other than through partial or total failure in the supply of canal water.

47. Before awarding compensation under section 76(*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. All applications for compensation under section 76(*c*) must be made not less than twenty days before the crop is cut.

48. Notwithstanding anything contained in these rules, the Superintending Canal Officer may, should he consider the circumstances of the case require it, under such general instructions as he may from time to time receive from Government, remit, under the head "Extraordinary", so much of the water-rates as are in excess of ten annas a bigha. But no such remissions shall be claimable as a right, nor shall any person be entitled to receive an order on an application for remission under this head, which will ordinarily only be made on the representations of Divisional Canal Officers.

49. A remission statement signed by the Superintending, or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

INTERMEDIARY AGENCY.

50. Leases in the *kharif* season for a term of years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor, who shall collect and pay to Government, under section 82 of Act III (B C.) of 1876, all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given as Appendix II to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

51. Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every due from a cultivator to a contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B C.) of 1876.

52. A contractor (or in case there be more than one, each contractor severally and jointly) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water supplied. In the case of his failure after due diligence to collect, he shall, within thirty days of the rates becoming due, submit to the Collector a list showing the names of the defaulters with the sums due from each, and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

53. A contractor (or in case there be more than one, each contractor severally and jointly) shall be responsible for all sums payable on the agreement, except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence, and shall be entitled to a deduction of 5 per cent. on all sums collected by himself.

54. In the case of a lease entered into under an application in the form given as Appendix I, a contractor may subsequently be appointed by the Collector with the written approval of the Superintending Canal Officer. Such contractor must, for the whole term of the lease, have a beneficial interest in some part of the land included in the application, and must sign an application in the form given as Appendix IIA. The appointment shall not be made unless the *lambardars* and leading cultivators give their assent in writing thereto, and the Collector is satisfied that the appointment of a contractor is acceptable to the signatories to the lease.

55. The contractor appointed under rules 50 and 54 may, but shall not necessarily, be *lambardar*. The *lambardar* will in all cases be appointed by the Canal Officer under the provisions of Rule 12, and shall be remunerated at the rates specified in Rules 11 and 14, subject to the conditions mentioned in Rule 15.

56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

57. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received, nor shall the Collector take any steps towards the appointment of a contractor under rule 54 until the written assent of the Superintending Canal Officer has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

58. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 25th June next following, in which case his connection with the lease shall cease from that date, and the Sub-Divisional Canal Officer shall proceed to appoint a *lambardar* under rule 12, and the Collector to realize water-rates due directly from the applicants. The Divisional Canal Officer may, at the instance of the Collector, remove a contractor who fails to use due diligence in making collections. In such cases three months' notice at the least before the 25th of June next following shall be given, and the removal shall take effect from that date. The Collector may, under the conditions and procedure specified in rule 54, appoint a new contractor in place of a contractor who has resigned.

59. With the written approval of the Superintending Canal Officer, a contractor may measure and prepare demand statements for lands irrigated in the hot weather, for which applications in the prescribed form have been filed by him. Such demand statements shall be forwarded to the Sub-Divisional Canal Officer, who shall thereupon proceed to deal with them as if they had been prepared by himself.

60. When an agreement has been made for the collection of rates by a contractor, the Divisional Canal Officer shall, under section 82 of the Act, furnish such contractor with a written authority to collect the amounts due by the cultivators, a copy of which shall be sent to the Collector.

60.(*a*) The contractors are to note the number and year of the *khatiani* and the serial number of the rate-payer on receipts granted by them in order that the particular demand may be traced when a mutation is applied for by a rate-payer.

ON COLLECTIONS AND ALTERATIONS IN DEMAND STATEMENTS.

61. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer except in the case of lands held *khaoli*, regarding which the provisions contained in rule 43 shall be followed.

62 The Collector may make any alterations in a demand statement provided the total sum shown to be due is not altered or an error in account only corrected. When such alterations are made in a demand statement appertaining to a lease for a term of years, a copy of the alteration statement shall be sent to the Divisional Canal Officer.

63. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector. A detailed list of all sums so written off shall be forthwith sent to the Superintending Canal Officer. In other cases the sanction of the Commissioner of the Division must be obtained, through the Superintending Canal Officer, to admit of demands being written off under this head.

MISCELLANEOUS.

64. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords and ferries and their approaches as are provided by the Divisional Canal Officer.

65. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others

66. Tanks may be filled with canal water without charge and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

67. The Divisional Canal Officer may supply water for manufacturing* or other purpose, charging for the same at the rate of one rupee per each 4,000 cubic feet or part of 4,000 cubic feet supplied. For the manufacture of bricks the rate is Rs. 5 per lakh of bricks, but when bricks are found to be manufactured without the previous sanction of the Divisional Canal Officer a rate of 4 as. per thousand bricks will be charged. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any purpose whatsoever not specified in this rule, or the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer, and if proposed for longer than a year, shall be submitted for the sanction of the Lieutenant Governor.

68. Patwaris called on to assist in identifying land or signatures or to give evidence shall receive such remuneration by way of fee as may be fixed by the Superintending Canal Officer or Collector with the approval of Government, but their signature shall not necessarily be required to any document prepared under these rules. The fees shall be disbursed at the time of attendance as far as practicable by the Sub-Divisional Canal Officer or Collector, whoever may require the patwari to attend.

69. Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by Rules 9, 10, 11, 15,

* Superintending Engineer's No. 858, dated 20th February 1882, fixed rate for use of Canal water for brick manufacture at Rs. 5 per lakh.

24, 39, 43, 52, 53, 54, 57, 58, 59, 61, 62, 68, and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

70. The Collector may, by a special order passed in each case, refer applications under rules 37, 40, or 41 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred by either the applicant or the Divisional Canal Officer.

ON THE RATES TO BE CHARGED FOR WATER SUPPLIED ON APPLICATION FROM THE SONE CANALS.

71. The following are the rates to be charged for water supplied for irrigation from the Sone Canals:—

(*a*)—Schedule I following will be in force in respect to permits issued for the irrigation of land after the 1st of April 1904.

(*b*)—Schedule II following will be in force in respect to permits issued for the irrigation of land after the 1st April 1904.

(*c*)—Schedule III following will be in force in respect to permits issued for the irrigation of land after the 1st October 1904.

(*d*)—Schedule IV following will be in force in respect to permits issued for the irrigation of land after the 25th February 1902.

(*e*)—Schedule V following will be in force in respect to water supplied after the 1st of April 1904.

(*f*)—Schedule VI following will be in force in respect to water supplied after 1st of November 1891.

(*g*)—For permits issued prior to the dates mentioned above, the rates at present in force enumerated in Notification No. 145 of the 20th June 1881, published in the *Calcutta Gazette* of 22nd June 1881, will be charged.

76. In the case of charges under schedules I to IV any smaller area than one-tenth of a bigha will be charged as one-tenth. The bigha contains 27,225 square feet.

SCHEDULE No. V.

77. For water supplied by volume in the *kharif* season—

For water supplied between the 1st of July and the 31st of October, four rupees for a calculated discharge of one cubic foot per second for twelve hours For less than a cubic foot per second or less than twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VI.

78. For water supplied by volume to fill *aharas*—

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second and less than twelve hours a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

79. In the case of leases under Schedules I and II, water will be supplied for rice-seed beds only as early in June as the supply in the river admits.

80. In the case of leases under Schedule II, no extra charge will be made for a crop of *kesari*, linseed, or *gram* sown on rice-fields watered with canal water, and water will be supplied until the 15th of November, if required.

81. In the case of leases under Schedule III, the Divisional Canal Officer may, in years when the demand for water for *kharif* crops admits of it, supply water for *rabi* on any date after the 7th October.

82. When in the area covered by a season lease only (I) no crop is sown in a field, or (II) the crop fails during the currency of the lease, water-rates may be levied at the rate of ten annas a bigha, provided that no application to be charged at these reduced rates shall be entertained unless presented twenty days before the crop is cut, and also during the currency of the lease.

83. In assessing water-rates under Schedules III and IV, the areas to be charged shall be subject to the following rules:—

I.—If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half-a-foot high.

II. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

84. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

85. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

86. Irrigation from Government drainage cuts shall be governed by the same rules as are laid down for irrigation from escape channels.

APPENDIX I.

[Referred to in Rule 16.]

Form of application for a lease for a term of years.

Mauza , *Pargana* , *Distributary* .

1. WE, whose names are attached, apply for water to be supplied from the above-mentioned distributary from the 25th June to the 25th March of each year for years for the irrigation of the block formed by our holdings as specified below.

2. The area to be irrigated by each applicant is stated in the schedule following, and each applicant agrees to pay water-rates on the area recorded against his name at the rate of Rs. per bigha This sum will be payable independently of our requiring water in any particular year or not.

3. Further we agree jointly and severally to pay the water-rates due for the holdings mentioned in the schedules following, the owners of which have not signed or given a written authority for the application to be signed on their behalf.

4. The application is made under section 74 of Act III (B.C.) of 1876, and the rules issued under it, more especially Rules 16, 20, 22, 24, 25, 26, 27, 28, 31, 45 and 46.

5. We agree to pay the water-rates due on this application in one *kist* on or before the 15th January.

6. The permit granted may be cancelled by the Divisional Canal Officer under the sanction required by Rule 24 —

I.—If, after the lapse of one month from the latest date of payment, the water-rates due on this application (except such as are irrecoverable under Rule 63) are in arrears.

II.—If water supplied for irrigating the land mentioned in the application habitually wasted or misused, it being expressly agreed that water is supplied for the sole purpose of irrigating the land mentioned in the application.

SCHEDULE

[Fifth publication.]

The 17th April 1911.

No. 2.—Notification.—It is hereby notified for general information that the Lieutenant-Governor in Council proposes, under the provisions of sections VI and XI of the Bengal Canals Act V of 1864, to make the following addition to Item 9 of the Schedule of tolls in force on the Calcutta Canals and Tolly's Nala and published in Notification No. 144, dated the 23rd May 1893, as amended by Notification No. 9, dated the 28th October 1907.

T. BUTLER,
Secy. to the Govt. of Bengal.

Addition to Item 9 of the Schedule above referred to.

"Monthly tickets at ten times the ordinary toll as calculated under Item 1 of the Schedule for entering the Canals from the eastward will be issued to boats carrying passengers, vegetables and perishable goods for plying within the Circular, New Cut and Kristopur Canals. These tickets will not entitle the boats to pass through the Dhappa or Chitpore Lock, but they will be allowed to pass the Kristopur Toll Station."

MARINE DEPARTMENT.

The 16th May 1911.

No. 55Marine.—In exercise of the power conferred by section 10 of the Bengal Smoke Nuisances Act, 1905, the Lieutenant-Governor in Council proposes to substitute the following for rule 23 of the rules published under this Department Notification No. 73Marine, dated the 27th August 1907.

The proposed rule will be taken into consideration on the expiry of three months from the date of its publication in the *Calcutta Gazette*, and the Lieutenant-Governor in Council will be glad to consider any suggestions or observations which may be made concerning it within that period.

PROPOSED RULE 23.

(1) Smoke of the scales of density Nos. 1, 2 and 3, as determined in accordance with rule 21, may be emitted from furnaces for any time.

(2) Smoke of the scales of density Nos. 4 and 5, as determined in accordance with the said rule, may be emitted from furnaces for the times prescribed in respect of each such scale in the following table.

(3) Smoke of density varying from the scale of density No. 4 to the scale of density No. 5 may be emitted for times rateably reduced in accordance with the explanation to this rule, and not in excess of the times entered in column 5 of the table, provided that smoke of the scale of density No. 5 shall in no case be emitted for times in excess of those entered in column 3.

(4) Smoke of the scale of density No. 6, as determined in accordance with rule 21, is entirely prohibited, and may not be emitted from any furnace.

Table of limits of smoke (proposed).

1	2	3	4	5
SMOKE MAY BE EMITTED FROM A CHIMNEY SERVING	IN THE CASE OF DENSITY, SCALE 6.	IN THE CASE OF DENSITY SCALE 5.	IN THE CASE OF DENSITY, SCALE 4.	IN THE CASE OF DENSITIES, SCALES 5 AND 4 TOGETHER.
	For minutes per hour.	For minutes per hour.	For minutes per hour.	For minutes per hour (rateably reduced in accordance with the explanation below).
1 or 2 furnaces...	.....	2	3	2·21
3 or 4 „ ...	.....	3	4	3·13
5 or 6 „ ...	.....	4	5	4·05
7, 8 or 9 „ ...	.....	5	6	4·97
10 or more „ ...	.....	6	7	5·89

Explanation.—For the purposes of sub-clause (3) of this rule, the time during which smoke of the scale of densities Nos. 4 and 5 is emitted shall be reduced, in the case of smoke of the scale of density No. 4, in the ratio of 0·37 to 1, and in the case of smoke of the scale of density No. 5 in the ratio of 0·55 to 1.

Example

Smoke of density, scale 5, may be emitted from a chimney serving ten furnaces for six minutes per hour, and of density, scale 4, for seven minutes. The total time during which smoke of these densities may therefore be emitted is, when rateably reduced, 6 × 0·55 × 7 × 0·37, or 5·89 minutes per hour.

B. HEATON,
Principal, Civil Engineering College.

BIHAR SCHOOL OF ENGINEERING.

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" Class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers, Overseers and Upper Subordinates.

Students are prepared for the examinations conducted by the Joint Technical Examination Board.

4. The next session will commence on 3rd July 1911.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. Government scholarships of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examination, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class.. Of the scholarships attached to the school, 75 per cent. are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and Mathematics.

(2) The equivalent Test Examinations for European schools.

(3) Students who have not passed any of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the University Matriculation examination in these subjects) to be held at the school, on the 3rd and 4th July, respectively, from 10 A.M. to 1 P.M. each day.

7. All applications for admission must reach the Principal not later than the 28th June. Applicants must give the following particulars:—

(*a*) Name, address, and occupation of father or guardian.

(*b*) Race and religion. (A domiciled Bengali must produce evidence to show that his father, with his family, has taken up their permanent residence in Bihar.)

(*c*) A certificate of good moral character from last head-master.

(*d*) An attested certificate of age (showing that he is under 20 years of age).

(*e*) A medical certificate showing him to be fit for employment in the public service.

(*f*) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re 1. An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. He will not be admitted to the workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of elementary surveying and the other subjects taught in the Amin class may, at his option, leave the school with an Amin certificate.

All candidates for the Amin class, will be examined at the school on the 3rd July; candidates failing at this examination will not be admitted. The subjects of the examination are dictation and elementary mathematics of about the middle vernacular standard.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 3rd July 1911 unless application for admission is made before 28th June 1911.

10. There is a hostel in connection with the school. The fees are Re. 1-8 for room and Re. 1 for light. Students make their own mess arrangements. Students joining the Overseer classes must reside in the hostel unless they are residents with parents or with nearly related guardians, whose homes are near enough to enable them to attend the school at the required times. The Principal will decide whether a student should reside in the school hostel, or whether the guardian proposed can be accepted as such.

11. The initial expenses for books, instruments, etc., for a student joining the Overseer Department are as follows:—

		Approximate cost. Rs.	A.
Books		10	0
Drawing instruments		25	0
Workshop deposit		10	0
School and Hostel admission-fee	for Biharis ...	3	8
	for others ...	5	0

SATIS CHANDRA VIDYABHUSANA,

The 10th May 1911. *Principal, Sanskrit College, and Secretary, Board of Sanskrit Examinations.*

CALCUTTA UNIVERSITY.

NOTICE.

APPLICATIONS are invited from candidates who intend to compete for the Coates Memorial Prize for 1911.

The prize will be awarded to the best writer of a thesis on any indigenous drug or drugs to be selected by the competitor himself subject to the approval of the Dean of the Faculty of Medicine. The writer of the thesis must be a graduate in Medicine of the Calcutta University, who has been engaged in the practice of the profession for at least five years.

The names of the drugs so selected must be submitted to the undersigned for the approval of the Dean of the Faculty of Medicine within three months from the date of this notice. The names of the drugs approved by the Dean of the Faculty of Medicine will, as soon as possible, be communicated to the candidates who submitted their applications within the specified time.

No prize will be awarded for a thesis on any drug which has not been approved by the Dean of the Faculty of Medicine.

The thesis must be written in English and it must be submitted to the undersigned not later than the 30th November 1911 in a sealed cover with the words "Thesis for Coates Memorial Prize" and the name of the writer distinctly stated on it.

G. THIBAUT, *Registrar.*

SENATE HOUSE, *the 11th May 1911.*

CALCUTTA UNIVERSITY.

NOTICE No. I.

THE Griffith Memorial Prize for 1911 will be awarded by the Hon'ble the Vice-Chancellor and Syndicate of the Calcutta University in the course of 1912, and the subject for the prize will be an essay or record of original work in some department of Letters.

All persons who have taken the Degree of Bachelor in the Faculty of Arts, or the corresponding Degree in any other Faculty in the Calcutta University, will be allowed to compete for the prize.

Each candidate for the prize is required to send to the undersigned his essay or record of original work under a distinguishing motto on or before the 31st December 1911. The name of the candidate must be forwarded at the same time in a sealed envelope with the motto outside.

G. THIBAUT, *Registrar, Calcutta University.*

SENATE HOUSE, *the 12th May 1911.*

CALCUTTA UNIVERSITY.

NOTICE.

APPLICATIONS are invited from candidates for the Maharaja of Darbhanga scholarship for 1911. Such applications are to reach the undersigned not later than the 30th June 1911.

The value of the scholarship is Rs. 50 per month and it is tenable for one year only from July 1911 to June 1912.

All Graduates and Licentiates in Medicine of the Calcutta University are eligible to compete for the scholarship.

Every candidate is required to state in his application the special subject or branch of medical science in which he proposes to carry on investigation or research work and also to state in what respects his investigations appear to him to tend to the advancement of medical studies. He is also required to state in his application the place where he intends to carry on his research work. If in a recognised laboratory or hospital, a recommendation from the head of such laboratory or hospital as to the fitness of the candidate to conduct such work and the probable value of such work must accompany the application. If the candidate intends to carry on investigations privately, his application must be supported by a certificate to the above effect from a Member of the Faculty of Medicine.

The scholar will be appointed by the Syndicate on the recommendation of the Faculty of Medicine

During the tenure of his scholarship the scholar will be required to devote at least four hours a day, Sundays and holidays excepted, to research work in the special branch of medical science selected by him and approved by the Board of Studies in Medicine, and his work will be open to inspection by a Member of the Faculty of Medicine to be specially deputed by the Faculty in that behalf.

During the tenure of his scholarship, every Research scholar will be required to submit short quarterly reports of his work to the Member of the Faculty of Medicine who may be deputed to inspect his work and upon whose favourable report the continuance of his scholarship will depend

Each scholar will also be required to submit, at the end of his tenure of scholarship, a complete statement which must be typewritten and otherwise ready for publication and which will be laid before the Faculty of Medicine, who, if publication be deemed advisable, will decide all questions in connection therewith.

G. THIBAUT, *Registrar, Calcutta University.*

SENATE HOUSE, *the 12th May 1911.*

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The undermentioned candidates have passed the Matriculation Examination, 1911 :—

THE INDIAN LAW REPORTS,

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

DEPARTMENT OF AGRICULTURE, BENGAL.

THIRD AND FINAL FORECAST OF THE WHEAT CROP OF BENGAL, 1910-11.

[On an average of the five years ending 1908-09, the area under wheat in the territory to which this forecast relates represents about 4·6 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage (*a*) in British India and (*b*) in the territory now reported on has, in the five years ending 1908-09, averaged (*a*) 39 per cent. and (*b*) 8 per cent., respectively.]

Character of the season.—Wheat is grown chiefly in Bihar, but also in Nadia, Murshidabad, Hazaribagh and Palamau. Good rain fell in September and October, and there was sufficient moisture for the sowings which were commenced at the usual time. In November there was no rain except in Bihar and in parts of Chota Nagpur, where the fall was above the average. A dry December followed. In January the rainfall was general and proved beneficial to the crop, especially in Bihar. In February light showers fell all over the province except in Bihar and Chota Nagpur. Damage by hail is reported from Murshidabad, Champaran and Muzaffarpur.

Area sown.—The total area sown with the crop this year is estimated at 1,382,500 acres against 1,427,900 acres last year.

Outturn.—The estimated percentage outturn in the fifteen districts where the crop is most important is as follows:—Patna, Saran, Bhagalpur, Purnea and Palamau, 100 per cent.; Sonthal Parganas, 97 per cent.; Gaya, 96 per cent.; Shahabad, Murshidabad and Muzaffarpur, 90 per cent.; Hazaribagh, 88 per cent.; Darbhanga, 84 per cent.; Monghyr, 82 per cent.; Champaran, 76 per cent.; Nadia, 53 per cent.

The outturn for the whole Province, according to the District Officers' estimates, works out to 90 per cent. of the normal against 95 per cent., which was their estimate in the second forecast issued in February. The reduction is attributed to the damage done by hailstorm in some districts and also to the want of rain at the time of maturity.

From the district reports it appears that the outturn in some districts has been underestimated. I estimate that the crop for the Province as a whole will probably not fall short of the normal or 100 per cent.

Accepting 100 per cent. as the outturn of the crop, the gross yield for the Province works out to 599,800 tons as against 540,700 tons last year.

Food-stocks and prices of food-grains.—The outturn of the three harvests, viz., *aghani*, *bhadoi* and *rabi*, was estimated by this Department at 112, 90 and 100 per cent., respectively. The food-stocks of the previous harvest are generally reported to be plentiful throughout the province. The following table shows the price of wheat in Calcutta and the average price in selected important wheat growing districts as they stood on the 15th March of each year from 1908 to 1911:—

	Price of wheat in seers per rupee on the 15th March.

Average prices in selected districts of Bengal.	7	1	8	3	9	9	13	1

Exports of wheat from Calcutta by sea during the ten months from April 1910 to January 1911 amounted to 3,986,575 maunds against 3,540,084 maunds for the corresponding period of last year, and the imports into Calcutta by all routes for the same period aggregated 7,530,386 maunds and 7,195,083 maunds, respectively.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR APRIL 1911.

I. *Character of the season.*—The rainfall was general all over the Province. The fall was below the average everywhere except in Howrah, Jessore, Khulna, Shahabad, Saran, Darbhanga, Monghyr, Cuttack and Balasore where it was in excess of the normal. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—Planting of sugarcane and preparations of lands for the next season's crops continued during the month. Harvesting of *rabi* crops was nearly completed. Want of sufficient moisture was felt for ploughing operations in the Presidency Division, in Burdwan and Puri. There was good rain in the third week which was general all over the Province and sowing of early paddy and jute commenced.

III. *State of standing crops.*—The newly planted sugarcane and vegetables were doing well.

IV. *Prospects and probable outturn of harvests.*—The *rabi* harvest was good. The outturn of these crops was estimated at 100 per cent. of the normal.

V. *Damage to crops* —Some damage was done to the standing crops by hail in parts of Murshidabad, Champaran and Khulna.

VI. *Condition of agricultural stock.*—The condition of agricultural stock was on the whole good. Cases of cattle-disease were reported from Burdwan, Midnapore, Howrah, Nadia, Jessore, Khulna, Shahabad, Monghyr, Purnea, the Sonthal Parganas, Puri, Sambalpur and from all the districts of the Tirhut and Chota Nagpur Divisions except Saran and Singhbhum.

VII. *Failure of pasturage and fodder.*—Scarcity of water was reported from Burdwan, Midnapore, the Sonthal Parganas, and Hazaribagh. Insufficiency of fodder was reported from all these places and also from Monghyr.

VIII. *Prices of food-grains.*—During the second fortnight of the month under review the price of rice rose in 15 and fell in three districts. It varied from 10½ seers a rupee in the 24-Parganas to $17\frac{1}{16}$ seers in Angul.

IX. *Condition of agricultural people.*—Agriculturists were in good condition. The outturn of the three harvests was good.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF APRIL 1911.

During the month of April rain fell in all the districts of the Province. The fall was above the average in the following districts:—Howrah, Calcutta, Jessore, Khulna, Shahabad, Saran, Darbhanga, Monghyr, Cuttack and Balasore. The excess was greatest in Khulna and Balasore where the departure from the normal was 1·02 and 1·50 inches, respectively. The fall was below the normal elsewhere. On an average South-West Bengal received 1·77 inches, Bihar 0·48 inch, Orissa 1·71 inches and Chota Nagpur 0·29 inch of rain.
